Your Purchase of Seeds is a Matter of Confidence

VICTOR—Small growing self-topping variety. Bears exceptionally heavy crops of medium-size scarlet tomatoes. Excellent home and market garden variety. Won bronze medal in 1941. Pkt. 15c, oz. 85c, ¼ lb. \$3.00, postpaid.

POLE BEANS, KENTUCKY WONDER

The most productive variety of pole bean for Arizona conditions is the Kentucky Wonder, which we offer in either white or brown seeded forms. As a snap bean it is unsurpassed in tenderness and flavor. Equally a favorite with the market and home gardener. Pkt. 5c, ¼ lb. 15c, ½ lb. 30c, 1 lb. 50c, 10 lbs. \$4.50, postpaid.

F. F. SMITH & CO., INC.
sell only seed of
SUPERIOR QUALITY

Your greatest assurance of crop success is
OUR TESTED RELIABLE SEED

We purchase seed only from growers who have proven their reliability through our years of experience in dealing with them. New strains and types are all tried out in this climate before they are offered to our discriminating trade. All seed offered in this catalog have been tested and proven as the best types and strain for successful planting in this and similar climates.

HOW TO ORDER BY MAIL

YOUR NAME AND ADDRESS—Be sure that your name and address are written very plainly on each order.

IT MATTERS NOT HOW SMALL YOUR ORDER nor what you may want in the seed line, we shall be glad to hear from you. Our ambition is to serve you in a manner that will make you one of our satisfied customers.

MARKET GARDENERS should avail themselves of Market Gardeners' privileges and write for special quantity prices.

ERRORS IN FILLING ORDERS—We use the greatest of care in filling, checking and packing orders. Yet should anything be omitted we will promptly forward when advised. Keep a duplicate copy of your order for comparison.

REMITTANCES may be made by Express Money Order, P. O. Money Order or Bank Draft; if stamps or cash, send in registered letter. We must decline goods C.O.D. unless 25 per cent of their value accompanies the order.

ACCOUNTS—Parties having no account with us, who order goods without remittance, must furnish satisfactory reference.

WE CARRY ONLY ONE GRADE OF SEED—That is the best procurable. We fill all of our own seed packets from fresh seed of the highest purity and germination. Follow our Planting Guide and Cultural Directions as given in our catalog.

NON-WARRANTY—We give no warranty, express or implied, as to the productiveness of any seeds or bulbs we sell and we will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of seed.

Add 2½ % of Order to Cover State Retail Sales Tax
(Customers outside of Arizona need pay no Sales Tax.)

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

DOMESTIC PARCEL POST RATES

For the convenience of our out-of-town customers we list many items at postpaid prices.

For Items Not Listed Postpaid, Customer May Figure Rate from Chart Below

1945 VEGETABLE SEEDS

Carefully Tested and Selected for Home Gardens and Market Gardeners

ARTICHOKE

LARGE GREEN GLOBE—The favorite garden variety. Very ornamental. Bears second year from seed. Pkt. 15c, oz. \$1.00, postpaid.

ASPARAGUS

CULTURE—Soak seed 24 hours before planting. Sow in February and March in rows, covering seed about 1 inch. The following winter transplant to rows 3 to 6 feet apart and a foot apart in the rows, with at least 10 inches covering. Asparagus prefers light loamy soils.

PALMETTO—Light green; very popular. Pkt. 10c, oz. 20c, ¼ lb. 50c, 1 lb. \$1.50, postpaid.

SELECTED MARY WASHINGTON — A new giant rust-proof variety. Pkt. 10c, oz. 20c, ¼ lb. 65c, 1 lb. \$2.00, postpaid.

Asparagus Roots

Plant one year old roots and do not cut them back. When planting see that the roots are well spread out so that the soil will touch every part. If this is not done the plant cannot thrive.

MARY WASHINGTON ROOTS — 75c per doz., \$3.50 per 100, postpaid.

Stringless Black Valentine

BEANS

ASK FOR QUANTITY PRICE

CULTURE—For a spring crop plant in February, March and April, according to the location. For fall crop, plant in August and early September. Beans enjoy a well-drained loamy soil. Irrigate beans only when needed and do not flood the vines. Cultivate frequently and before the soil has a chance to crust. Plant Bush Beans about 3 inches apart in 3-foot rows at the rate of about 1 pound to 100 feet of row and from 75 to 100 pounds per acre. Plant Pole Beans at the rate of 1 pound to 200 feet of row and about 40 pounds per acre.

Bush Beans, Green Pod

Pkt. 5c, ½ lb. 30c, 1 lb. 50c, 10 lbs. \$4.50, postpaid.

PLENTIFUL—This excellent new variety won the All-America award in 1939. Very productive. Pods long, straight, tender and stringless. Excellent flavor. Seeds black. 49 days.

BOUNTIFUL—Desirable early type for market or home garden. Plants large and thrifty. Pods flat, medium green, fine flavor. Seeds yellow-straw color. 49 days.

IMPROVED STRINGLESS GREEN POD — This stringless green pod bean is one of the most popular beans in America. In earliness it is in the lead, in quality it is unexcelled, and as a cropper it is unrivaled. The straight fleshy, round, thick pods are stringless.

Prices Listed are Postpaid.
Write for Quantity Prices.

Bush Beans, Wax Pod

Pkt. 5c, ½ lb. 30c, 1 lb. 50c, 10 lbs. \$4.50, postpaid.

IMPROVED BLACK WAX—Round podded. A beautiful bright yellow color, very early and continues long in bearing. Very productive.

IMPROVED GOLDEN WAX—This bean is a distinct improvement on the old Golden Wax.

Pole Beans, Green Pod

Pkt. 5c, ½ lb. 30c, 1 lb. 50c, 10 lbs. \$4.50, postpaid.

KENTUCKY WONDER (Brown Seeded) — Very early and enormously productive. Entirely stringless, very tender. Plant as early in the spring as possible, and again in the latter part of July to the 20th of August.

KENTUCKY WONDER (White Seeded) — The nearly round, silvery green pods are tender, fleshy and stringless. Excellent snap bean; the dry beans good for baking. An improved rust-resistant strain.

SCARLET RUNNER—A great favorite; both ornamental and useful producing dazzling scarlet flowers during the summer months. Pkt. 10c, ¼ lb. 20c, ½ lb. 30c, 1 lb. 50c, postpaid.

Bush Lima Beans

Pkt. 5c, ½ lb. 30c, 1 lb. 50c, 10 lbs. \$4.50, postpaid.

IMPROVED BUSH LIMA—The earliest maturing of all the large seeded limas.

HENDERSON'S BUSH LIMA—One of the most productive of the bush lima beans. Pods are small, about 3 inches long, and contain 3 to 4 seeds. Green shell bean but white when fully ripe.

FORDHOOK BUSH LIMA—A popular variety for home or market garden and more prolific than any of the bush varieties. The pods are borne in clusters, are about 4¾ inches long. The pods remain green for a long time.

Pole Lima Beans

KING OF THE GARDEN—A vigorous and productive sort, pods very long, each containing 5 to 6 large beans of delicious flavor. Pkt. 5c, ½ lb. 30c, 1 lb. 50c, 10 lbs. \$4.50, postpaid.

Smith's Quality Seeds for Successful Crops

Corn, Golden Cross Bantam

Beet, Early Wonder

Cabbage, Golden Acre

TABLE BEET SEEDS

CULTURE—In the warm sections Beets may be planted from August 1 until May 1. In the higher altitudes planting may commence as soon in the spring as weather conditions will allow. Two ounces of seed will plant 100 feet of row and 8 to 10 pounds are required per acre. Plant in rows of 18 to 24 inches apart and thin to 3 or 4 inches in the row. Cover the seed $\frac{1}{2}$ inch deep and firm the soil after planting. Beets enjoy a light, rich, loamy soil, and frequent cultivation is necessary for rapid and tender growth.

PRICES ON TABLE BEET SEED. Pkt. 5c, oz. 25c, $\frac{1}{4}$ lb. 75c, 1 lb. \$2.25, postpaid.

Please write for prices in larger quantities.

EARLY WONDER—A very fine market and table beet. This is an early beet with a very small tap root, small top and is of exceptionally fine dark red color. The beets are slightly flattened and mature very evenly. For a table as well as a canning variety we cannot recommend it too highly.

DETROIT DARK RED—This is a fine main crop all-purpose beet. Sweet, tender and fine grained.

EARLY BLOOD TURNIP—Flesh very tender and retains its blood red color when cooked.

CROSBY'S EGYPTIAN—Our Crosby's is a very superior extra early strain of garden beet which has been very carefully selected for type.

STOCK BEETS

Stock Beets are recognized as a very valuable stock food.

CULTURE—Sow seed 1 inch deep in well cultivated soil in drilled rows 18 inches to 3 feet apart, the distance depending on the method of cultivation. When large enough, thin plants to 10 inches apart in the row. About 8 pounds is required per acre. As beets germinate slowly, the seed should be planted in moist soil.

MAMMOTH LONG RED—The roots of this variety grow to a very large size.

GOLDEN TANKARD—Contains more sugar and less water than any other Mangel.

GIANT HALF SUGAR—A very hearty yielder. White solid, tender flesh and very sweet.

SUGAR BEET (White Klein Wanzleben)—Not the largest in size but the richest in saccharine. It will fatten hogs as quickly as grain.

ALL STOCK BEET PRICES — Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$1.75.

Essential steps in preparing and sowing the garden.

For depths to cover see page 10.

BROCCOLI

GREEN SPROUTING ITALIAN (Calabrese)—The edible portion differs from other Broccolis in use in that the flower heads are borne on long stems and are cooked and eaten along with the flower and are of a very mild flavor, having none of the distinct cabbage flavor. Plant and care for as cabbage or cauliflower. Pkt. 10c, oz. 40c, $\frac{1}{4}$ lb. \$1.35, 1 lb. \$4.00.

BRUSSELS SPROUTS

IMPORTED HALF DWARF PARIS MARKET—The culture for Brussels Sprouts is the same as for cabbage. It is a highly esteemed vegetable. Pkt. 10c, $\frac{1}{4}$ oz. 30c, oz. 85c, postpaid.

CABBAGE

CULTURE: In the warm sections of California, seed should be planted during July and August, in shaded beds, for Fall crop. Also during the Fall and Winter months for Spring harvest. Six ounces will produce plants for 1 acre when transplanted. If drilled in rows and thinned out, 3 to 5 pounds per acre is required.

GOLDEN ACRE CABBAGE—Grown from selected Danish import stock seed by one of the very best Danish growers. One of the earliest varieties of Cabbage. It is dwarf in habit, resembles the Copenhagen Market Cabbage, but smaller heads, averaging $2\frac{1}{2}$ to 3 pounds in wt. Pkt. 10c, oz. 50c, $\frac{1}{4}$ lb. \$1.65, 1 lb. \$5.00, postpaid.

COPENHAGEN MARKET—This variety also is grown from select Danish import stock seed by one of the most reliable growers. Pkt. 10c, oz. 50c, $\frac{1}{4}$ lb. \$1.65, 1 lb. \$5.00, postpaid.

RED DUTCH—Heads of deep color and very solid. Excellent for cold slaw and for pickling. Pkt. 10c, oz. 50c, $\frac{1}{4}$ lb. \$1.65, 1 lb. \$5.00, postpaid.

CHINESE CABBAGE

CHILILI—Early dependable heading variety. Heads 18-20 inches tall, very firm, well blanched, crisp, sweet and tender. Matures in 70 days. Serve as a salad or cook like asparagus. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00, postpaid.

WONG BOK—Dwarfer; heads 8 to 10 inches tall, broad and firm. Well blanched and of excellent quality. 75 days. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00, postpaid.

LO-TEMP DUST

Non-poisonous. Designed to control Vegetable Pests. Easy to apply.

Garden Fresh Sweet Corn – Truly Delicious

CARROTS

Plant Smith's Quality Seeds

Carrots grow in most any soil, although a sandy loam plentifully enriched with well-rotted manure suits them best. Sow 1 oz. of seed to 100 feet of row, 4 lbs. to the acre. Plant from August to May in rows 15 to 18 inches apart. Keep clean by frequent hoeing and weeding.

DANVER'S HALF LONG—A favorite with market growers and shippers. The tops are medium size. The mature roots are of medium length, 6 to 8 inches long, tapering uniformly to a blunt point. The flesh is of deep orange, tender and of good quality. Pkt. 10c, oz. 30c, ¼ lb. \$1.00, 1 lb. \$3.00.

IMPROVED CHANTENAY—A first-class table variety, stump rooted, broad shouldered, about 5 or 6 inches long. Pkt. 10c, oz. 30c, ¼ lb. \$1.00, 1 lb. \$3.00.

OX-HEART—Especially desirable for soil so hard and stiff that longer-rooted varieties will not thrive in it. The mature roots are 4½ inches long. Pkt. 10c, oz. 30c, ¼ lb. \$1.00, 1 lb. \$3.00.

IMPERATOR—One of the best selling varieties. In appearance it is sleek, 7 to 8 inches in length, with round shoulders, allowing it to bunch well. Its color is deep orange and its core very indistinct. Pkt. 10c, oz. 30c, ¼ lb. \$1.00, 1 lb. \$3.00.

FRENCH FORCING—(60 days) An excellent variety for home garden and early market. It is reddish orange in color, small and globe shaped, excellent quality. This is the earliest of the carrots. Pkt. 10c, oz. 30c, ¼ lb. \$1.00, 1 lb. \$3.00.

NANTES HALF LONG CORELESS — A crisp, tender carrot of fine flavor. Flesh is reddish orange and practically coreless; tops are small. A good home or market garden variety. Pkt. 10c, oz. 30c, ¼ lb. \$1.00, 1 lb. \$3.00.

The Above Are Postpaid.

CAULIFLOWER

CULTURE—Prepare the seed bed carefully, using only rich and thoroughly pulverized soil. Keep the plants in a healthy and a rapid growing condition. Broadcast the seed in the seed bed. To mature crop for the December market in Sacramento Valley, plant seed in July in shaded beds. For a continuous crop throughout the winter season plant seed in July, August, September and October. For Northern California, plant in the spring. When plants are 40 to 45 days in beds they are ready for the field. Transplant to 24 inches apart in rows 30 to 36 inches apart. Five ounces of seed will produce plants for one acre.

EARLY SNOWBALL—(92 days) This is the earliest, and one of the best types for early market, shipping, or the home garden. Dwarf and compact in growth. Fine, solid, round, pure white heads, weighing 1½ to 2 lbs. Pkt. 10, ¼ oz. \$1.25, 1 oz. \$4.00.

DANISH GIANT (Medium Snowball) (105 days)—Similar to Early Snowball but later in maturity, coming in as the former variety finishes. Heads large, weighing 2 lbs. or more, white with tinge of cream. Plants dwarf, and short stemmed. Pkt. 10c, ¼ oz. \$1.25, 1 oz. \$4.00.

CELERIAC

(OR TURNIP-ROOTED CELERY)

CULTURE—Nearly the same as celery. A form of celery grown for its fleshy roots.

GIANT PRAGUE—Produces large smooth roots with few side roots. Pkt. 10c, oz. \$1.00, ¼ lb. \$3.35, postpaid.

CELERY

Plant in seed beds in May and when seedlings have 3 or 4 leaves, thin to 3 inches apart. Transplant to open field in August. Bleaching is done by drawing the soil to the plants.

GOLDEN SELF BLANCHING—Tall, compact, excellent type. Pkt. 10c, oz. \$1.50, ¼ lb. \$5.00, postpaid.

SPECIAL UTAH GREEN PASCAL—Medium broad compact stalks. Fine flavor. Very meaty, crisp and sweet, and usually used in the green stage. Pkt. 10c, oz. \$1.00, ¼ lb. \$3.35, 1 lb. \$10.00, postpaid.

CELTUCE

New vegetable recently introduced from China. Combines flavors of both lettuce and celery. Culture as for Swiss Chard. Young tender plants may be used for greens either raw or boiled. When larger, the central stem is used—stripping off the leaves and paring off the skin. It is delicious used raw as a relish like carrots or celery. Pkt. 15c, postpaid.

SWISS CHARD

FOLIAGE BEET

CULTURE—Same as beets.

FORDHOOK GIANT—A very fine vegetable giving large returns for the little care required. Leaves are rich green turning to white in advanced stages. Used for greens the same as spinach or beet tops. The ribs are excellent cooked and served as you would asparagus. Pkt. 5c, oz. 20c, ¼ lb. 60, lb. \$1.75, postpaid.

LARGE WHITE RIBBED—60 days. Large smooth leaves of thick texture grown mostly for the broad, white tender mid-ribs. The green, succulent leaves may be used like spinach and have a nice flavor. Pkt. 5c, oz. 25c, ¼ lb. 80c, lb. \$2.40, postpaid.

RHUBARD CHARD—Looks like Rhubarb. The leafy stalks are bright, translucent crimson, extending out through the veins into the dark green, heavily crumpled leaves. Different, tasty. Pkt. 15c, 1 oz. 40c, ¼ lb. \$1.45, 1 lb. \$4.00, postpaid.

CHIVES

The famous Schnittlauch—highly prized for flavor. The seed of this is not easily germinated and it will be necessary, therefore, to plant a fairly good quantity of the seed if many plants are desired. Pkt. 20c, ¼ oz. 35c, postpaid.

COLLARDS

CULTURE—Similar to cabbage, but does not produce a head.

TRUE GEORGIA—A strong growing variety with light green leaves. Pkt 10c, oz. 15c, ¼ lb. 40c, 1 lb. \$1.00, postpaid.

SWEET CORN

CULTURE—Plant sweet corn in the spring after all danger of frost, when the soil is warm enough to assure germination. Plant 4 to 5 kernels in hills 18 inches apart in 3-foot rows. Cultivate after each irrigation until stalks shade the ground. Do not allow the soil to

Cauliflower, Early Snowball

become too dry at any time. One pound of seed will plant 200 to 300 feet of row or from 8 to 10 pounds per acre, depending on the size of the seed.

YELLOW VARIETIES

GOLDEN CROSS BANTAM—Edible in 88 days. This hybrid is undoubtedly one of the best and most prolific of the yellow sweet corns. The ears are 8 to 10 inches long with 14 to 16 rows of kernels, slightly lighter in color and yielding about 40 per cent more marketable ears than Golden Bantam. Grows 5 to 6 feet high with sturdy stalks and deep green foliage. Pkt. 10c, ¼ lb. 20c, ½ lb. 30c, 1 lb. 50c, 10 lbs. \$4.00, postpaid. Write for quantity prices.

GOLDEN BANTAM (83 days)—The earliest really sweet variety. Fine flavor, sweet, and very tender. Ears are 6 to 7 inches long and have 8 rows of very broad golden kernels. Pkt. 10c, ½ lb. 20c, 1 lb. 35c, 5 lbs. \$1.50.

WHIPPLE'S EARLY YELLOW (85 days)—Another early maturing variety for home or market garden. Quality is good. Ears 7-8 inches long and 12-14 rowed. About double the size of Golden Bantam, and, therefore, used more than this variety by market gardeners. Pkt. 10c, ½ lb. 20c, 1 lb. 35c, 5 lbs. \$1.50.

GOLDEN BANTAM EVERGREEN (95 days)—Very large thick ears, 7-8 inches long, with 14-18 rows of tender kernels. One of the leading and best late varieties of yellow corn. Remains in condition a long time. Pkt. 10c, ½ lb. 20c, 1 lb. 35c, 5 lbs. \$1.50.

WHITE VARIETIES

ALAMEDA SWEET (90 days)—A medium early variety developed by market gardeners in Alameda County. Ears 8 to 9 inches long, with 10-14 rows, protected by strong husks about the top. This character limits injury by corn ear worm. Very tender and deliciously sweet. Pkt. 10c, ½ lb. 20c, 1 lb. 35c, 5 lbs. \$1.50.

OREGON EVERGREEN (95 days)—Earlier than the variety Stowell's Evergreen. Ears rarely less than 8 inches long covered with a tight thick husk protecting ear from corn ear worm. Kernels white and very sweet. Pkt. 10c, ½ lb. 20c, 1 lb. 35c, 5 lbs. \$1.50.

COUNTRY GENTLEMAN (110 days)—An old favorite, often called "Shoe Peg" corn because of the long narrow kernels, without row formation. Ears 7½-9 inches long, 2 inches thick. Very late, and fine for home or market garden. Pkt. 10c, ½ lb. 20c, 1 lb. 35c, 5 lbs. \$1.50.

STOWELL'S EVERGREEN—One of the best late varieties. Large ears about 8 inches long. Kernels clear white, deep, rather broad, very sweet and tender. 16 to 20 rowed; uniform. Holds well in prime condition at eating stage. Stalk sturdy and erect. Highly desirable for home and market gardeners. Matures in 105 days. Pkt. 10c, ½ lb. 20c, 1 lb. 35c, 5 lbs. \$1.50.

MISCELLANEOUS VARIETIES

Black Mexican (88 days)—One of the richest flavored and most tender varieties. Although when ripe the seed is dark bluish or black, when ready for table use it is white. The ears are about 9 inches long, usually 8 rowed. Pkt. 10c, ½ lb. 20c, 1 lb. 35c, 5 lbs. \$1.50.

For Market Gardeners — Quantity Prices

CUCUMBER

CULTURE—Plant cucumbers in the spring as soon as all danger of frost is over. If you are located in the light frost areas planting may be made two to four weeks earlier and receive the full benefits of the early market prices. In the Sacramento Valley and similar sections plantings are also made in the fall, usually August and September. Plant 6 to 10 seeds 1 inch apart each way. One ounce will plant 50 hills, 3 pounds to the acre. After all danger of pests are removed and you are sure of your plants, thin out, leaving three of the strongest plants. Give abundance of water and frequent cultivation for the best results. Cucumbers enjoy a light, sandy, rich soil.

PRICES ON CUCUMBER SEED, unless otherwise noted, are as follows, postpaid: Pkt. 10c, 1 oz. 25c, 1/2 lb. 85c, 1 lb. \$2.50.

COLORADO—Fruits 9 to 12 inches long. One of its outstanding qualities is that it does not taper, but is practically the same size from end to end. The color is dark green, making it especially attractive for display. The flesh is crisp and tender. An exceptionally heavy yielder.

SELECT EARLY FORTUNE—Very productive, early and disease resistant; fruits about 8 inches long, slightly tapering; flesh is white; very firm and crisp, with few seeds. It is of a rich green color and keeps well. Ready for market in about 60 days.

SPECIAL LONG GREEN—Grows from 12 to 14 inches long and is of superior quality. Of fine dark green color and slender. Flesh very firm.

KLONDIKE—Another good white spined variety, medium length, dark color, fine quality.

BOSTON PICKLING—Very prolific; largely planted for pickles. The fruits are short, smooth, bright green and of excellent quality.

LEMON—A new variety, the color of a lemon when ready for use and similar in shape. Pkt. 10c, oz. 30c, 1/4 lb. \$1.10.

GRESS

FINE CURLED or PEPPER GRASS—Sow 1 oz. to 50 feet of row. Requires a rich well prepared soil. Plant 1/2 inch deep in rows 12 to 16 inches apart. When plants are well started thin to 4 to 6 inches apart. Pkt. 10c, oz. 45c, 1/4 lb. \$1.50.

EGG PLANT

CULTURE—Egg Plant grows exceedingly well in California, as it thrives in warm, dry weather. Sow in hot beds or boxes and transplant when danger of frost is over. Plant 2 feet apart in 4-foot rows. To secure a rapid and continuous growth, water and cultivate frequently. One ounce of seed will produce about 1,000 plants.

BLACK BEAUTY—The fruits are rich, dark purple, large and symmetrical, maturing a little earlier than our Improved New York Purple but usually not quite as large. Pkt. 10c, oz. 65c, 1/4 lb. \$2.15, 1 lb. \$6.50, postpaid.

IMPROVED NEW YORK PURPLE—Large oval-shaped, deep purple fruits. Pkt. 10c, oz. 65c, 1/4 lb. \$2.15, 1 lb. \$6.50, postpaid.

ENDIVE

CULTURE—Sow seed at any time with the exception of the hot summer months. Sow thinly in rows 18 inches apart and cover lightly. When about 4 inches tall they should be thinned out to stand a foot apart in the row. This plant grows to perfection and makes a very delicious salad for winter use. After plants are well grown gather up leaves and tie at tips into a loose bunch to bleach the inner leaves.

GREEN CURLED RUFFEC—A hardy vigorous variety with deep green leaves. This variety is generally preferred as it bleaches to a beautiful golden yellow. Pkt. 10c, oz. 20c, 1/4 lb. 50c, 1 lb. \$1.50, postpaid.

GARLIC

CULTURE—Plant in the Sacramento Valley and similar climates during October and November. In higher altitudes during the spring season. One pound will plant about 50 feet of row.

GARLIC SETS—50c per pound, postpaid. Write for quantity prices.

HERB SEEDS for Planting

Anise, Sweet Basil, Borage, Caraway, Catnip, Coriander, Dill, Lavender, Sweet Marjoram, Sage, Sorrel, Summer Savory, Saffron, Fennel.

All Herbs, 10c per packet, postpaid.

KALE or BORECOLE

CULTURE—Sow in drills during the fall and spring months. Transplant to 12 inches apart in 3-foot rows. 1/2 ounce required for 100 feet of drill.

GREEN CURLED SCOTCH—Grows to a height of 2 feet or more; leaves are bright green and curled. Pkt. 10c, oz. 30c, 1/4 lb. 90c, 1 lb. \$2.75, postpaid.

KOHL RABI

CULTURE—Kohl Rabi is a cold weather plant and should be seeded from early fall to early spring, eliminating the hot summer months. In colder sections plant in early spring. Plant like turnips and thin to 6 inches apart. 1/2 ounce of seed will produce about 1,000 plants.

EARLY WHITE VIENNA—Earliest sort, very tender, excellent for table use. Pkt. 10c, oz. 55c, 1/4 lb. \$1.85, 1 lb. 5.50, postpaid.

EARLY PURPLE VIENNA—Similar to above, but has flesh of purple color. Pkt. 10c, oz. 55c, 1/4 lb. \$1.85, 1 lb. \$5.50, postpaid.

Growing Conditions Are Different in California

It is just this difference in growing conditions that prompted us to include specific instructions in our catalog. We are trying to convey ideas for profitable gardening, and though we realize they may not be infallible, we are doing our level best to better the understanding of gardening.

Most recommendations for planting are, of necessity, general—that is, done on a national scale and do not consider our specific problems.

In California we have open winters, with occasional "cold snaps" which never prohibit planting of root and top vegetables (except all vine crops). The lower temperatures seem to discourage garden enthusiasm for no real reason. Germination of seed is slower and maturity dates are extended but do not overlook the following:

Start in late Aug. or 1st of Sept. and throughout the winter:

LEAF CROPS—Lettuce, Swiss Chard, Spinach, Endive, Mustard, Kale, Cress, Celery, Herbs, Parsley and Kohl-rabi.

ROOT CROPS—Beets, Carrots, Onions, Parsnip, Radish, Salsify, Turnips, Rutabaga.

Sow late in July to late Nov. and again in early December:

TOP HEADING VEGETABLES—Cabbage, Cauliflower and Broccoli.

PEAS—Sow August 20 for fall crop. In November and December for spring crop. We have numerous calls for peas in spring—the result of eastern methods and catalogs—but the deadline for even "Early Peas" here is February, because peas do not thrive in the warm weather.

The point we wish to make is this: Our recommendations are carefully prepared with only one thought in mind—to make your garden profitable to you. Better seeds, properly planted and tended are the most important factors to successful gardens.

LEEK

CULTURE—Plant in seed bed or in drills in the field; when large enough transplant or thin out about 6 inches apart in 18-inch rows. One ounce of seed is required to 150 feet of row.

LARGE LONDON—Broad leaves of strong and vigorous growth; very hardy. Pkt. 10c, 1 oz. 65c, 1/4 lb. \$2.15, postpaid.

Lettuce

Earlier, Hardier Plants with **HOTKAPS**

Protect Your Garden Against Rain, Wind, Frost and Bugs

Do as successful market growers do: Place patented Germaco HOTKAPS — strong little hot-houses—over seeds (or over plants when transplanting). Completely protect from destructive frosts, storms, insects—maintain perfect mulch. Increase yield from 18 to 51 per cent, ripen plants three weeks earlier. Quick, easy to set, instructions on package. 25 Hotkaps, 50c (postpaid 65c); 100, with setter, \$1.95 (postpaid \$2.15); 250, with setter, \$3.50 (postpaid \$3.75). Beat everyone with first vegetables, flowers. Buy Germaco HOTKAPS from us today. **MARKET GROWERS: GERMACO HOTKAPS help you have sure crops, highest out-of-season prices, bigger profits.**

1000 for only \$11.00, postage extra.

WEIGHT 28 POUNDS. WRITE FOR QUANTITY PRICES.

Lettuce, Imperial 847

LETTUCE

CULTURE—Lettuce is best suited to rich, light, loamy soil and should never be planted in worn-out soils. At planting time the soil should be in the best of condition. Sow seed on ridges in rows 18 inches apart and when plants are large enough thin to 10 to 15 inches apart. Run the water in furrows between the ridges and never allow the water to touch the plants.

When lettuce is planted early in hot ground plant 2 pounds of seed to the acre. During the winter season, when the soil is cool, 1 1/4 pounds per acre is plenty.

Head Lettuce

Ask for prices in larger quantities for commercial planting.

NEW YORK SPECIAL—Hardy, uniform heads, light green outer leaves with the center bleached pure white. Pkt. 10c, oz. 30c, 1/4 lb. \$1.00, lb. \$3.40.

IMPERIAL 847—A splendid variety for market or home use. Large, crisp, tight heads and a great favorite wherever grown. Pkt. 10c, oz. 30c, 1/4 lb. \$1.00, lb. \$3.40.

IMPERIAL "152"—Medium sized, solid heads. Quite hardy, very sure heading, also resistant to brown blight. Pkt. 10c, oz. 35c, 1/4 lb. \$1.10, lb. \$3.40.

IMPERIAL "615"—One of the largest heading varieties. Resistant to brown blight; does not make suckers. Desirable for early spring cutting. Pkt. 10c, oz. 35c, 1/4 lb. \$1.10, lb. \$3.40.

ICEBERG—A splendid head lettuce for spring planting. Pkt. 10c, oz. 25c, 1/4 lb. 35c, lb. \$2.50.

Leaf Lettuce

PARIS COS or ROMAINE—Leaves yellowish white, very crisp and tender; a self-blanching lettuce of superior flavor. Pkt. 10c, oz. 20c, 1/4 lb. 70c, lb. \$2.10.

EARLY PRIZEHEAD—An early home garden variety, with highly frilled and crumpled leaves, the outside leaves ringed red, the interior green. Very tender and sweet. Pkt. 10c, 1 oz. 25c, 1/4 lb. 75c, 1 lb. \$2.00.

BLACK SEEDED SIMPSON—Crisp and very tender. Large crumpled or frilled leaves make a bunch at the center. Pkt. 10c, oz. 20c, 1/4 lb. 70c, lb. \$2.10.

Market Growers Should Ask for Quantity Rates.

Smith's Melons for Best Results

CANTALOUPE

Watermelon, Selected Klondike Brown Seeded

WATERMELONS

CULTURE—Use our northern grown seed for a successful melon crop. Our melon seed is selected from the very best types and will grow hardier larger plants and melons than the average seed. Plant seed in furrow, dropping six seeds every 8 or 10 feet apart. Cover about 2 inches deep. As the vines grow, hill the earth about them until the roots are 10 to 12 inches deep. When safely established, thin vines to about two to the hill. Be sure to cultivate after each irrigation as soon as the condition of the soil will permit. Use 2 to 3 pounds of seed to the acre.

SELECT KLONDIKE—One of the best melons grown for shipping and home use. The rind is very thin and of a medium green color. The flesh is bright red, tender and deliciously sweet. Our seed is of the genuine strain, as our selections are made from perfect specimen melons. Pkt. 10c, oz. 25c, ¼ lb. 75c, 1 lb. 2.25, postpaid.

KLONDIKE BROWN SEEDED—An outstanding variety for shipping and home garden use in California. Popular because of its delicious flavor and attractive interior color. Flesh bright red and very sweet. Fruits oblong and of uniform green color. Pkt. 10c, oz. 25c, ¼ lb. 75c, 1 lb. \$2.25, postpaid.

KLONDIKE, WILT RESISTANT R-7—Is resistant to fusarium wilt and has all the other qualities of the regular Klondike listed above. Pkt. 10c, oz. 25c, ¼ lb. 85c, 1 lb. \$2.50, postpaid.

NEW STRIPED KLONDIKE No. 11—This new strain carries as high sugar content as any commercial watermelon. The rind is thin but strong and the flesh is solid and a bright red. A most attractive melon in both outside appearance and when cut. Edible qualities are excellent and delicious. Seeds are black spotted and striped with brown at the edges. Pkt. 10c, oz. 25c, ¼ lb. 75c, 1 lb. \$2.25, postpaid.

ANGELENO BLACK SEEDED—Much like white seeded Angeleno except in color of seed. Pkt. 10c, oz. 20c, ¼ lb. 50c, 1 lb. \$1.50, postpaid.

IMPROVED BLACK SEEDED CHILIAN—This melon possesses a rich, fruity flavor. Very sweet and has a thin rind. Pkt. 10c, oz. 20c, ¼ lb. 50c, 1 lb. \$1.50, postpaid.

IRISH GRAY or GENERAL PERSHING—Color is a yellowish gray. Flesh is a brilliant sparkling red, very sweet and firm. Pkt. 10c, oz. 20c, ¼ lb. 50c, 1 lb. \$1.50, postpaid.

KLECKLEY SWEET—A medium size melon; rind very green and flesh deep red. Delicious flavor. An excellent melon for either home garden or shipping. Pkt. 10c, oz. 20c, ¼ lb. 50c, 1 lb. \$1.50, postpaid.

STONE MOUNTAIN—A very large oval round shaped melon. Rind dark green and tough. Flesh is deep scarlet and very sweet. A very desirable shipping and home garden melon. Pkt. 10c, oz. 20c, ¼ lb. 50c, 1 lb. \$1.50, postpaid.

CITRON or PRESERVING MELON—For preserves. Fruit round and smooth. Is not eaten raw but is used for making clear transparent preserves of peculiarly fine flavor. Flesh white and solid. Pkt. 10c, oz. 20c, ¼ lb. 50c, 1 lb. \$1.50, postpaid.

HONEY DEW and CASABA

BABY PERSIAN—A small type Persian melon. Is uniform in size. Fruit is about 6 inches in diameter and can be packed in crates for shipping. A very desirable home gardening type. Pkt. 10c, oz. 25c, ¼ lb. 85c, 1 lb. \$2.50.

GOLDEN BEAUTY—The most popular and the best flavored Casaba melon grown. Grows from 6 to 8 inches in diameter, is nearly round, slightly pointed at the stem end. The wrinkled skin is a beautiful golden yellow and the rind is very hard. The flesh is pure white and very thick. Pkt. 10c, oz. 25c, ¼ lb. 85c, 1 lb. \$2.50, postpaid.

HONEY BALL—This melon has become very popular. In appearance it is similar to the Honey Dew, but is smaller and runs more uniform. Has a wonderful flavor and preferred sometimes to the Honey Dew. Pkt. 10c, oz. 20c, ¼ lb. 65c, 1 lb. \$2.00, postpaid.

HONEY DEW—Excellent flavor, good keeping qualities and very prolific. Flesh is light green and sweet as honey. Ready to pull when green lustre has changed to a creamy yellow and ready to eat when an impression can be made with the thumb. Pkt. 10c, oz. 25c, ¼ lb. 85c, 1 lb. \$2.50, postpaid.

HOTKAPS

eliminate weather and insect damage, promote sturdy growth and bring crops to maturity two to three weeks earlier. For prices, see page 7.

CULTURE—Thoroughly soak the soil. When dry enough, plow 10 or 12 inches deep. After pulverizing the soil make furrows 8 or 10 inches deep. Plant the seed in furrows 6 feet apart each way, using 8 or 10 seeds to a hill, which will require 2 pounds to the acre. When paper covers are used, plantings in the Sacramento Valley generally starts in February and March. If covers are not used, plant after danger of frost is over. As the plants grow, gather the soil around them until the roots are 10 or 12 inches below the surface. Thin out surplus plants as soon as they are hardy and well established. Please remember that the roots are as long as the vine, therefore when working close to the vines let the cultivation be shallow. Always cultivate the irrigating furrow when dry enough so as to conserve the moisture.

HALE'S BEST No. 45—Excellent flavor and a good keeper as well as mildew resistant. An early variety developed particularly for the shipping trade. The No. 45 is a true Hale's Best. Oval shape, medium size, with heavy net and a faint stripe. Flesh is deep salmon, thick and firm with small seed cavity. Recommended to plant where mildew is prevalent. Pkt. 10c, oz. 25c, ¼ lb. 85c, 1 lb. \$2.50, postpaid. Ask for quantity prices.

EARLY HALE'S BEST No. 36—An extra early salmon tint of remarkable flavor. Melons are oblong, well netted and attractive. Small seed cavity. Ten days to two weeks earlier than other varieties and yields big. One of the best main crop melons. Pkt. 10c, oz. 25c, ¼ lb. 85c, 1 lb. \$2.50, postpaid.

EXTRA-EARLY HACKENSACK (Green Flesh)—Rounded fruits of medium size, irregularly ribbed and heavily netted. Thick flesh of a delicious sweet flavor. Pkt. 10c, oz. 25c, ¼ lb. 85c, 1 lb. \$2.50, postpaid.

IMPROVED ROCKY FORD PERFECTO—An excellent shipping variety. Melons are heavily netted without ribbing. Flesh orange, thick and has a delicious flavor. Small seed cavity. An excellent melon. Pkt. 10c, oz. 20c, ¼ lb. 85c, 1 lb. \$2.50, postpaid.

TIP TOP—A prime favorite for the home garden or nearby markets. Medium size, deeply ribbed and slightly netted. Flesh is salmon, rich and sweet. Pkt. 10c, oz. 25c, ¼ lb. 85c, 1 lb. \$2.50, postpaid.

CRANSHAW—A new melon of exceptional merit. Fruits weigh 7 to 8 pounds, are pointed at stem end and round at base. The skin is relatively smooth with no rib or net, mottled gold and green. The flesh is a pleasing bright salmon, very thick, and has rich, spicy flavor. Not a good distance shipper but an excellent variety for local markets and the home garden. Pkt. 10c, oz. 40c, ¼ lb. \$1.25, 1 lb. \$3.75, postpaid.

Cantaloupe, Hale's Best No. 45

Superior Onion Seeds and Sets

Onion, White Sweet Spanish

Evergreen Bunching Onion

Onion, Utah Sweet Spanish

MUSTARD

CULTURE—Very easy to grow. Sow in the fall and during the winter and spring months. Drill in rows and cover lightly. Mustard is not particular as to soil, but a medium heavy soil is best.

SOUTHERN CURLED — The true curled leaf variety. Looks like spinach and has a very agreeable flavor. Pkt. 5c, oz. 15c, ¼ lb. 50c, 1 lb. \$1.50, postpaid.

BAK-TOI (Chinese White Rib)—Green leaves with broad white rib, somewhat like a small chard plant. Delicious when cooked, the same as spinach or chard. Pkt. 10c, 1 oz. 15c, ¼ lb. 25c, 1 lb. 75c.

OKRA or GUMBO

CULTURE—Okra thrives well in California and is a very popular vegetable. Requires a generous supply of water and responds readily to fertilization and cultivation. Plant after all danger of frost is over in drills and thin to 12 inches apart. Sow one ounce to 50 feet of row. To produce really early okra plant heavily, at least 10 or 12 pounds to the acre.

EARLY DWARF GREEN — Short pod. Dwarf stocky growth, heavy bearer. The pods are medium short, greenish color, tender and of good flavor. The most popular variety. Pkt. 5c, oz. 20c, ¼ lb. 35c, 1 lb. \$1.00, postpaid.

LONG GREEN—A very productive variety. Long ribbed pods. Pkt. 5c, oz. 20c, ¼ lb. 35c, 1 lb. \$1.00, postpaid.

PARSLEY

CULTURE—Sow in the fall for early spring. As the seed is slow to germinate, a light mulch over the seed bed will retain the moisture and hasten germination. Cover lightly. One ounce of seed will produce about 500 plants.

MOSS CURLED—Excellent for garnishment and flavoring and very decorative. Leaves are very fine and crisp. Pkt. 10c, oz. 20c, ¼ lb. 50c, 1 lb. \$1.50, postpaid.

PARSNIP

CULTURE—Plant from October to March. Sow in drills in rich soil ½ inch deep and 15 inches apart. Cultivate like carrots and thin to 4 inches apart. ½ ounce of seed will plant about 100 feet of row; 3 pounds to the acre.

HOLLOW CROWNED—The very best parsnips, either for table use or for stock. Pkt. 10c, oz. 20c, ¼ lb. 60c, 1 lb. \$1.75, postpaid.

ONIONS

CULTURE—Onions are very hardy and will grow reasonably well in any soil, requiring no specialized culture. They do best, however, in good rich well drained loose soil. For early onions sow seed in beds from August 1st to October 1st, transplanting when the plants are the size of a lead pencil, 5 inches distant in rows 15 inches apart. Early varieties will mature bulbs in June and July. The seed of the late varieties is drilled; no transplanting is done. Seeding is done from December to March. These late varieties will mature from August on.

EARLY VARIETIES

STOCKTON YELLOW GLOBE, YELLOW (90 days)—Extensively used early onion. Very large, half globe, of attractive light lemon yellow color. Flesh pure white and very mild. Pkt. 10c.

CALIFORNIA EARLY RED (75 days)—A new strain of very uniform size, color and shape. Large, half globe bulbs, with thick skin of an even deep red color. Flesh white, very sweet and juicy. Pkt. 10c.

ITALIAN RED or TORPEDO, RED (125 days)—Very elongated in shape with pure white flesh. Extremely heavy producer, and with the sweetest flavor of any early variety. Pkt. 10c.

STANDARD VARIETIES

RIVERSIDE SWEET SPANISH—This variety is increasing in favor each year on account of its large size, attractive color and superior flavor, being very mild and sweet. Bulbs are globe shaped, light yellowish brown in color. You will find this the most satisfactory onion to plant for home use and profitable for the market. Pkt. 10c, 1 oz. \$1.00.

WHITE SWEET SPANISH—Similar to the original Sweet Spanish with the exception that it is white fleshed. Like the original, it is a good keeper. Pkt. 10c; 1 oz. \$1.00.

YELLOW GLOBE DANVERS—A well known early onion of fine quality. Flesh white and firm. Color a bright straw; grows to a good size, hardy, a sure cropper and a good keeper. Pkt. 10c, 1 oz. 75c.

SOUTHPORT WHITE GLOBE—A favorite white onion in Los Angeles market. A true globe shape, pure pearly white, fine flavor and a good keeper. Pkt. 10c, 1 oz. 75c.

ONION SETS

WRITE FOR PRICES IN LARGE QUANTITIES

NOTE—Prices include postage. When sent otherwise, deduct 10 cents per pound or fraction thereof. If quantities are desired, do not fail to write for special prices.

Onion sets are grown from seed that has been sown too thickly to attain a large size. These small onions are planted out and are soon ready to pull for the table or bunch for market. Mature about six weeks earlier than crop grown from seed.

BROWN—1 lb. 40c, 10 lbs. \$3.75.

Germāco Hotents

Big brothers to the famous Germaco Hotkaps. Extra large size provides extra large space for growing plants. Lengthen your season, help you get to market earlier for highest prices. (See Hotkaps, page 40).

PRICES: 500 lots, \$7.50; 1000 lots, \$14.50. Setter, \$1.75; postage or freight extra.

.. Enable You to Plant Earlier ..
Protect Longer!

Get a Good Start With SMITH'S Seeds

Peas, Laxton's Progress

GARDEN PEAS

CULTURE—Peas may be planted in almost any kind of soil. In light soil during the warmer months they should be planted about 3 inches deep so as to be near moisture. In heavier soils or in fall months plant about 1 inch deep, that warmth may penetrate and help germinate the seed. Rows should be about 2½ to 3 feet apart. Excessive moisture will rot the seed, so do not irrigate after seed is planted until the plants are well out of the ground. Cultivate after each irrigation. Usual planting is at rate of 60 pounds per acre. One pound will plant a row of 150 feet.

EARLY VARIETIES

LAXTON'S PROGRESS (62 days)—One of the best of the large podded early peas. Vine 18 to 20 inches high, pods 4 inches long, ¾ inch wide, dark green color that stand long distance shipping well and are well filled with large peas of finest quality. Pkt. 5c, ½ lb. 25c, 1 lb. 45c, 10 lbs. \$3.50.

HUNDREDFOLD (64 days)—Grows 18 inches to 20 inches high, dark green foliage, pods 4 inches long, dark green, straight, well filled. Whether you plant a few rows in your gar-

den or a large acreage, you will find this one of the best. Pkt. 5c, ½ lb. 25c, 1 lb. 45c, 10 lbs. \$3.50.

AMERICAN WONDER (60 days)—The old standby among the early dwarf peas. Is very early, grows 12 to 14 inches in height and pods are crowded with 6 or 8 fine quality peas. Pods medium green, blunt ended, 3 inches long, ½ inch wide. Pkt. 5c, ½ lb. 25c, 1 lb. 45c, 10 lbs. \$3.50.

LITTLE MARVEL (62-64 days)—A variety noted for its dwarf habit, good quality and high yield. Vines 18-20 inches tall. Pods are small, but dark green, and well filled with very sweet peas. Unsurpassed in quality and productiveness for home gardens. Pkt. 10c, ½ lb. 25c, 1 lb. 45c, 10 lbs. \$3.50.

MID-SEASON VARIETIES

IMPROVED STRATAGEM (77 days)—A favorite with home gardeners because of the long handsome pods. Pods 4 inches long, plump, straight, with a slight taper at the end. Vines 24-28 inches long. Pkt. 10c, ½ lb. 25c; 1 lb. 45c, 10 lbs. \$3.50.

GIANT STRIDE (75 days)—Wilt resistant and has an unusually long (5½ inch) slightly curved thick pod of attractive green color and very well rounded and filled. Height 27 inches, vines sturdy and dark green. Pkt. 5c, ½ lb. 25c, 1 lb. 45c, 10 lbs. \$3.50.

LATE VARIETIES

ALDERMAN (TALL TELEPHONE) (74 days)—The finest of the tall growing late varieties. Height, 4 to 5 feet, pods 4½ inches long, dark green, peas large and most delicious. Pkt. 5c, ½ lb. 25c, 1 lb. 45c, 10 lbs. \$3.50.

DWARF GRAY SUGAR, EDIBLE POD (70 days)—Early, vigorous, prolific, with a fleshy pod that is cooked like string beans. Vines 32 to 36 inches tall, branching, pods light green. 2¾ to 3¼ inches long and ¾ inch wide. Pkt. 5c, ½ lb. 25c, 1 lb. 45c, 10 lbs. \$3.50.

PEPPERS

CULTURE—Sow seed in hot beds in November, December and January. Transplant to the field when all danger of frost is over unless paper plant protectors are used. Peppers delight in highly fertilized soil and should be kept well watered. Plant 18 inches apart in 30-inch rows. One ounce of seed will produce 1,000 plants or ¼ pound seed to the acre.

ANAHEIM CHILI—Pods about 7 or 8 inches in length. Because of its agreeable pungency it is one of the most popular peppers on the market. Pods keep for months when dried, which makes it a good, marketable crop. Pkt. 10c, oz. 65c, ¼ lb. \$2.25, 1 lb. \$6.50, postpaid.

CALIFORNIA WONDER—It is the best large-fruited pepper in existence, very smooth, heavy, free from creases and wrinkles. Meat thick, tender and of finest flavor. Pkt. 10c, oz. 95c, ¼ lb. \$3.15, 1 lb. \$9.50, postpaid.

FLORAL GEM—The favorite variety when a small hot pepper is desired for pickling or highly flavored sauces. Pkt. 10c, oz. 80c, ¼ lb. \$2.65, 1 lb. \$8.00, postpaid.

PIMENTO—Every garden should have a row of this pimento. For salad, parboil it to remove the skin. Stuffed and baked, it is superior to any other pepper. Pkt. 10c, oz. 55c, ¼ lb. \$1.85, 1 lb. \$5.50, postpaid.

Pumpkin, Small Sugar

PUMPKINS

CULTURE—Plant in hills 8 to 10 feet apart each way in March and July and August. Drop five or six seeds to the hill and thin out to one healthy plant. Pumpkins, like other vine crops, should be irrigated carefully, not allowing the water too near the main stalk. About 3 pounds are required to the acre. Plant plenty of pumpkins as they make excellent cow and hog feed.

SMALL SUGAR—A very popular small variety. The skin is a deep orange yellow and the flesh sweet and fine-grained. Sells better than any other pumpkin on the local market. Excellent for pies. Pkt. 5c, oz. 20c, ¼ lb. 40c, 1 lb. \$1.25, postpaid.

LARGE CHEESE—Large size; reddish orange; flesh thick, fine and sweet. A good keeper. Pkt. 5c, oz. 20c, ¼ lb. 40c, 1 lb. \$1.25, postpaid.

JAPANESE PIE—Nearly solid flesh; the seed cavity being very small, fine-grained, dry and sweet. Taste somewhat like sweet potatoes. They ripen early and are good keepers. Pkt. 5c, oz. 20c, ¼ lb. 40c, 1 lb. \$1.25, postpaid.

CONNECTICUT FIELD—A fine variety for dairy ranches, adding much to the quality and quantity of milk and butter. Excellent keeper. Pkt. 5c, oz. 20c, ¼ lb. 40c, 1 lb. \$1.25, postpaid.

CUSHAW GREEN STRIPED (75 days)—This large crook-necked pumpkin is excellent in warm locations. Yields a heavy tonnage and is used largely by dairymen. Pkt. 10c, 1 oz. 20c, ¼ lb. 35c, 1 lb. \$1.00.

CALIFORNIA FIELD (85 days)—Varies in size and color, usually running very large and colors ranging from yellow to red. A heavy yielding, early maturing variety mostly used for stock feed. Pkt. 10c, 1 oz. 20c, ¼ lb. 35c, 1 lb. \$1.00.

Pepper, California Wonder

Proper depth of soil covering for seeds is very important. Better and quicker germination gives your garden a head start.

Superior Seeds for Home and Market Gardeners

Radish, White Tipped Scarlet Turnip

RADISH

CULTURE—Radish seed may be sown as early as the ground can be worked. Sow seeds thinly, and cover with about 1/2 inch of soil. Radishes will be crisp and tender if they grow quickly and have plenty of moisture. Make plantings every two weeks throughout the season for a succession. One ounce sows 100 feet of drill; 8-10 lbs. of seed required per acre.

Price of all radishes listed: Pkt. 5c, oz. 20c, 1/4 lb. 40c, 1 lb. \$1.25, all postpaid.

LONG WHITE ICICLE—The most popular long white radish.

EARLY LONG SCARLET—Long bright scarlet. Very brittle and sweet. Matures early.

WHITE TIPPED SCARLET TURNIP — A table dainty, crisp, tender and sweet.

EARLY SCARLET TURNIP—A handsome scarlet, crisp and juicy.

CRIMSON GIANT—Twice as large as any other turnip-shaped variety. Does not get hollow or pithy.

FRENCH BREAKFAST—An early variety with good flavor and attractive appearance.

ROUND BLACK SPANISH—Black skin, white flesh and firm texture.

EARLY SCARLET GLOBE—Oval in shape and is a rich scarlet color.

SALSIFY

SANDWICH ISLAND—An improved type and the largest and most delicious salsify in cultivation. Pkt. 10c, oz. 60c, 1/4 lb. \$2.00, 1 lb. \$6.00, postpaid.

Squash, Black Zucchini

SPINACH

CULTURE—Sow in drills 12 to 18 inches apart and for a succession, plant every two weeks. Cultivate often and keep free from weeds. Sow from September 1 to April, using 1 ounce of seed to 75 feet of row and from 25 to 35 pounds to the acre.

PRICKLY WINTER, HOLLANDIA (Broad Leaf)—A splendid fall and winter variety, quick growing with large green leaves. The leading variety. Ask for quantity prices. Pkt. 5c, oz. 15c, 1/4 lb. 25c, 1 lb. 75c, 5 lbs. \$3.50, postpaid.

NOBEL (GIANT THICK LEAVED)—A recent introduction and the best of the round seeded thick leaved varieties. Heavy yielding, leaves very large, thick, broad, smooth and deep green in color. We recommend "Nobel" for either home, market garden or canning use. Pkt. 5c, 1 oz. 15c, 1/4 lb. 25c, 1 lb. 75c, 5 lbs. \$3.50.

VIROFLAY—Large vigorous variety with thick broad deep green leaves. Popular with home and market gardeners. Pkt. 5c, oz. 15c, 1/4 lb. 25c, 1 lb. 75c, 5 lbs. \$3.50.

NEW ZEALAND—A large seeded cut-and-come-again variety. Not planted commercially. One plant will cover a 4-foot area. Pkt. 10c, oz. 20c, 1/4 lb. 65c, 1 lb. \$2.00, postpaid.

SQUASH

CULTURE—Sow in the spring after all danger of frost is over and also in the fall in time to mature a crop before frost. Light, warm soil is best. Plant bush varieties in hills 3 to 4 feet apart and vining varieties from 6 to 8 feet apart. Plant about six seeds to the hill and thin out to the three best plants. One ounce will plant about 40 hills of bush varieties and about 15 hills of vining varieties. Three or four pounds is required to the acre.

For very early plantings protect them with Hotkaps.

Write for quantity prices.

Summer Varieties

BLACK ZUCCHINI or ITALIAN—The most desirable sort for the home and market garden. The fruits are long and very dark green. Vines are bush formed and very productive. Fruits are used when quite young and average 4 to 6 inches long. Pkt. 5c, oz. 20c, 1/4 lb. 65c, 1 lb. \$2.00, postpaid.

Radishes, Early Scarlet Globe

EARLY SUMMER CROOKNECK—A small crook-neck summer squash. Skin bright yellow. This is the richest of summer squashes. Very early and productive. Pkt. 5c, oz. 20c, 1/4 lb. 65c, 1 lb. \$2.00, postpaid.

IMPROVED GREEN TINT WHITE BUSH SCALLOP—Similar to the White Bush Scallop, but selected for the darker green fruit which holds its color longer and makes it very desirable for market purposes. Pkt. 5c, oz. 20c, 1/4 lb. 65c, 1 lb. \$2.00, postpaid.

GOLDEN YELLOW STRAIGHTNECK — Select type of golden summer squash with a straight neck instead of curved. Pkt. 5c, oz. 20c, 1/4 lb. 65c, 1 lb. \$2.00, postpaid.

Winter Varieties

TABLE QUEEN—A small green squash growing about 7 inches long and 4 to 5 inches thick. Very sweet and fine grained. An excellent keeper for winter use. Pkt. 5c, oz. 25c, 1/4 lb. 75c, 1 lb. \$2.25, postpaid.

IMPROVED GREEN HUBBARD—The most popular hard-shelled squash for baking and for pies. Dark, bronze green skin and flesh is fine-grained, thick, dry and richly flavored. Pkt. 5c, oz. 25c, 1/4 lb. 75c, 1 lb. \$2.25, postpaid.

GOLDEN HUBBARD—Similar to Green Hubbard except in color, which is a deep orange. Pkt. 5c, oz. 25c, 1/4 lb. 75c, 1 lb. \$2.25, postpaid.

BANANA—A popular softshell variety growing 18 inches to 2 feet long, 6 to 8 inches in diameter; skin grayish blue; flesh yellow and fine grained. Pkt. 5c, oz. 25c, 1/4 lb. 75c, 1 lb. \$2.25, postpaid.

YOU CAN INCREASE THE NUMBER AND QUALITY OF BERRIES ON ORNAMENTAL SHRUBS . . . by spraying with

FRUITONE

REG. U. S. PAT. OFF.

This plant hormone spray will help to develop big berries on holly, snow berry, euonymus, pyracantha and other berry bearing shrubs—even when they are bi-sexual and no male plants are near. Simple and easy to use. Stops drop of leaves and fruit.

2/5 oz. pkt. (5 gallons of spray) 25c.

2 ozs. (25 gallons of spray) \$1.00.

Smith's Tomatoes for Best Results

Tomato, Norton Stone

TOMATOES

CULTURE—Tomatoes do best in light, warm, rich soil. Sow in hot beds about eight weeks before they are to be set in the field. The time of planting depends on the soil and climatic conditions. If you want early market tomatoes, we advise covering with Hotkap Plant Protectors for frost protection. Transplant 3 to 6 feet apart in rows 4 to 6 feet apart, the distance apart to be governed by the nature of the plants, whether compact, upright growth or of vining habit. Plow and pulverize the soil to a good depth so that the roots may penetrate deeply and avoid the hot surface soil. Use about 1/4 pound of seed for field planting or 1 ounce of seed for every 2,000 plants in the hot bed.

SELECT EARLIANA — The most popular first early variety grown in the Sacramento Valley. The plant is very hardy, with light foliage which tends to early ripening. Yields well and the fruit is solid and of fine quality. Pkt. 10c, oz. 75c, 1/4 lb. \$2.50, lb. \$7.50.

FIRST EARLY—An exceptionally good strain of Earliana type. Fruit high color solid and smooth. This tomato packs well and is a good shipper. One of the best of the early tomatoes. Pkt. 10c, oz. 75c, 1/4 lb. \$2.50, 1 lb. \$7.50, postpaid.

EARLY NO. 498—Recommended for the critical grower trade, of the Earliana type, globe shaped, smooth, of rich scarlet color. Probably the best of its type. Pkt. 10c, oz. 75c, 1/4 lb. \$2.50, lb. \$7.50.

DWARF STONE—Very erect habit of growth, allowing plants to be set as close as 18x24 inches. Very prolific, smooth, and ripens early. Color bright red. Pkt. 10c, oz. 75c, 1/4 lb. \$2.50, 1 lb. \$7.50, postpaid.

Tomato, Earliana, No. 498

MARGLOBE—The vine is vigorous, resistant to disease, fruit a large, slightly flattened globe, of fine bright color, very firm and meaty and of the very best quality. Pkt. 10c, oz. 75c, 1/4 lb. \$2.50, 1 lb. \$7.50, postpaid.

NORTON STONE (Wilt-resistant) (120 days)—Solid, meaty and fine quality. A heavy producer; fruits bright deep scarlet; large and flat but deep. Is an excellent shipper. Also in demand amongst canners. Pkt. 10c; 1 oz. 55c, 1/4 lb. \$1.85, 1 lb. \$5.50.

PEARSON—Vigorous self-topping plants. Set heavy crops of medium large, semi-globe shaped fruits. A good red color with tough skins. An ideal variety for canning and shipping. Bred for western conditions. Pkt. 10c, oz. \$1.50, 1/4 lb. \$5.00, lb. \$15.00, postpaid.

PONDEROSA or BEEFSTEAK — A very large tomato with very few seeds and of excellent flavor. The color is bright red with very firm substantial meat and luscious flavor. Pkt. 10c, oz. 95c, 1/4 lb. \$3.15, 1 lb. \$9.50, postpaid.

RUTGERS—A vigorous and productive tomato for canning or market. Fruits to 1 1/2 pound are borne on strong branches which hold them well above ground. Fruits are globular, bright red, with thick walls and small seed shells. It is an excellent tomato. Pkt. 10c, oz. 75c, 1/4 lb. \$2.50, postpaid.

PRITCHARD (110 days)—Wilt-resistant and self pruning, and is a heavy yielder. Produces very solid, smooth, deep scarlet, globe shaped fruits. We consider this an outstanding variety for canners, shippers and the home market gardener. Pkt. 10c, 1 oz. 60c, 1/4 lb. \$2.00, 1 lb. \$6.00.

RED CHERRY—Small bright scarlet fruits borne in clusters. Pkt. 10c, oz. 80, postpaid.

YELLOW PEAR—The favorite for preserves. Bright yellow pear-shaped fruit. Rich and distinct flavor. Pkt. 10c, oz. 80c, postpaid.

RED PLUM—Plum shaped. Used for preserves. Pkt. 10c, oz. 80c, postpaid.

TURNIPS

CULTURE—For a winter and early spring crop, sow seed in August and September. For a late spring crop, sow in January. Scatter seed broadcast, or preferably sow in rows like lettuce, etc., 12-18 inches apart, covering with about 1/2 inch of soil. Thin young plants 6 to 8 inches in the row. For large plantings, 2 pounds of seed per acre is required if drilled in, or 3 pounds per acre if broadcast.

PURPLE TOP WHITE GLOBE—The most popular and the most attractive turnip on the market. Pkt. 5c, oz. 15c, 1/4 lb. 35c, 1 lb. \$1.00, postpaid.

PURPLE TOP STRAP LEAVED—Quick grower. Flesh very fine grained and sweet. Pkt. 5c, oz. 15c, 1/4 lb. 35c, 1 lb. \$1.00, postpaid.

WHITE EGG—An egg-shaped variety for early or late planting. Pkt. 5c, oz. 15c, 1/4 lb. 35c, 1 lb. \$1.00, postpaid.

GOLDEN BALL—Round, smooth, yellow turnip of fine quality. Good keeper. Pkt. 5c, oz. 20c, 1/4 lb. 35c, 1 lb. \$1.00, postpaid.

RUTABAGA

OR SWEDISH TURNIP

IMPROVED YELLOW PURPLE TOP—The popular standard variety, both for stock feeding and for table use. Pkt. 5c, oz. 20c, 1/4 lb. 35c, 1 lb. \$1.00, postpaid.

Plant Smith's Finer Vegetable Seeds

WATERMELON, SELECT KLONDIKE

Delicious, sweet, tender melons with thin rich green skins can be grown in the home garden or in quantity for the market. It is an excellent shipper. Flesh bright red with characteristic small brown seeds. Our seed is selected from perfect specimens only. Watermelons make good growth in the warm climate of California. **Pkt. 10c, oz. 25c, 1/4 lb. 75c, 1 lb. \$2.25, postpaid.**

Seed is valuable and good seed deserves the best care possible, for with it better vegetables can be grown. Buy Smith's vegetable seed and be sure of the best in quality.

RADISH, EARLY SCARLET TURNIP

Radishes are about the easiest vegetable to grow. Sow any time of the year except the hottest months and have a continuous supply of fresh, crisp radishes for the table. **Pkt. 5c, oz. 20c, 1/4 lb. 40c, lb. \$1.25, postpaid.**

Use Lo-Temp

— for —

Melon Aphids and Thrips

See Page 44

ONION, SWEET SPANISH

A popular sweet onion for home and market gardens. **Pkt. 10c, oz. 85c, 1/4 lb. \$2.65, lb. \$8.00, postpaid.**

LETTUCE, IMPERIAL 847

These delicious, tight, crisp heads of lettuce are well known and grown in California. It is one of the best types we offer and is easily grown either commercially or in the home garden. Plant in a rich loamy soil for best growth. **Pkt. 10c, oz. 30c, 1/4 lb. \$1.00, lb. \$3.40, postpaid.**

Seeds of Quality

GIANT SNAPDRAGONS

GIANT SNAPDRAGON

(ANTIRRHINUM)

Plant in a sunny location during the fall and spring months. Thin out plants to about 10 inches apart. Lovely as cut flowers. Height 2½ to 3 feet. Excellent bedding and border plants. They will carry through the hot summer months if cut back and given high shade. We offer named varieties:

- SHASTA**—Pure white.
- DEFIANCE**—Dazzling scarlet.
- YELLOW JACKET**—Deep yellow.
- BRONZE HARMONY**—Terra cotta orange.
- BRILLIANT ROSE**—True rose-pink.
- WALLFLOWER RED**—Pure wallflower red.
- Each color: Pkt. 20c.

SPECIAL MIXTURE TALL GIANT FLOWERING SNAPDRAGONS—A well balanced mixture of the above colors and many others. Pkt. 15c.

SEMI-DWARF SNAPDRAGON

SEMI-DWARF VARIETIES MIXED—Height about 15 inches. Equally as lovely as the tall. All colors, mixed only. Pkt. 20c.

PANSIES

PANSIES are so well known they need no description. For successful germination and lovely blooms, prepare the soil carefully. Plant seed during the fall months in a semi-shady location, in well moistened, finely pulverized soil, enriched with a slight amount of barnyard fertilizer or bone meal. Cover seed lightly and firm soil. Keep beds moist but not soaking wet until plants are up. Transplant to 8 to 12 inches apart. Water young plants very sparingly to avoid damping off, but do not allow soil to dry out at any time. Annual.

STEELE'S GIANT MASTODON JUMBO MIXED

This is the original strain from Steele's Pansy Gardens and are the largest and most beautiful pansies grown. Many colors and color combinations. Stems very long and strong, standing well above the foliage. Pkt. 50c, large pkt. \$1.00, 1/16 oz. \$2.25, 1/8 oz. \$3.50, 1/4 oz. \$6.00.

GIANT SUPER MAPLE LEAF MIXED

One of the largest pansies grown. Immense flowers, long stems and brilliant colors. Large pkt. \$1.00, half size pkt. 50c, 1/16 oz. \$1.50, 1/8 oz. \$2.75, 1/4 oz. \$5.00.

SPECIAL LARGE FLOWERED SWISS GIANTS

Large size flowers of excellent uniform quality on long, strong stems. All colors and color combinations represented. Many frilled and sweet-scented. Pkt. 25c, 1/16 oz. \$1.50, 1/8 oz. \$2.50, 1/4 oz. \$4.00.

FINE MIXED PANSY

Medium size blooms, extremely free flowering. Especially desirable for larger beds and borders where a mass of color rather than size of the individual bloom is wanted. A full range of color. Pkt. 15c, 1/8 oz. \$1.50, 1/4 oz. \$2.50.

VERBENA

VERBENAS

HYBRIDA GIANTS

Verbenas grow low on the ground but have a spread of from 12 to 18 inches. The lovely individual florets grow in large clusters and the flowers may be used for cutting, or for very colorful beds and borders. Plant in the open during the fall, winter and spring months as they bloom practically all year round in California. Allow plenty of space between plants. Plant seed shallow in a finely made rich soil and keep moist but not wet until plants are up.

Giant Scarlet—Very large bright red.

Giant Beauty of Oxford Hybrid—Brilliant rose shades.

Giant Salmon Pink—Huge pink clusters.

Giant Violacea Stellata—Deep purple with white eye.

Giant Pure White—A giant pure white combining well with all colors.

HYBRIDA GIANTS MIXED—Contains all of the above colors and many others and blended for the proper color values. You will find the giant strains far superior to the old small flowered varieties.

All of the above: Pkt. 15c, 1/8 oz. 60c, 1/4 oz. \$1.00.

PANSY, STEELE'S MASTODON

Plant Flowers for Color and Charm

SMITH'S FLOWER SEEDS

AGERATUM

MIDGET BLUE—See color illustration, page 24. This is an ideal annual edging for flower beds and for borders. The flowers are fluffy bright azure-blue, growing in clusters and entirely covering the plants. Height about 4 inches. Pkt. 25c, 5 pkts. \$1.00.

BLUE PERFECTION—A very fine bedding sort, compact and large flowered. Color a deep amethyst blue. Height 1 ft. Pkt. 10c, 1/4 oz. 35c, oz. 90c.

AFRICAN DAISY

(*Dimorphothecca Aurantiaca*)

One of the best winter flowering annuals. The bright daisy-like flowers appear on stems about a foot high and cover beds, borders and parkings with a mass of blooms. Blooms within six to eight weeks.

NEW ORANGE IMPROVED — Large flowers, bright deep orange. Pkt. 10c, 1/4 oz. 40c, oz. \$1.25.

HYBRIDS—Mixed colors ranging from white, light pink, apricot, yellow and orange. Pkt. 10c, 1/4 oz. 40c, oz. \$1.25.

ANAGALLIS

Annual. Height about 1 foot. Lovely medium size daisy-like flowers in many brilliant hues, reds and blue predominating. Plant in the open in a sunny location.

MIXED COLORS—Pkt. 10c, 1/4 oz. 25c, oz. 75c.

SWEET ALYSSUM

Invaluable as a border plant. Annual. Plant from early fall to late spring. Blooms within six to eight weeks.

VIOLET QUEEN (NEW)—Dwarf, bright violet. Really beautiful. Pkt. 15c, 1/4 oz. 35c, 1/2 oz. 65c, oz. \$1.25.

LITTLE GEM—Dwarf, white; free blooming. Pkt. 10c, 1/4 oz. 25c, oz. 75c.

LILAC QUEEN—Dwarf, deep lavender. Pkt. 10c, 1/2 oz. 40c, oz. 75c.

MIXED SWEET ALYSSUM—A well blended mixture of dwarf varieties. Pkt. 10c, 1/2 oz. 40c, oz. 75c.

GENERAL SOWING HINTS FOR GROWING FLOWERS FROM SEED

LOCATION: Nearly all flowers do well in sunny location. Only a few can be grown in the shade. For flowers blooming in the late spring, high shade from the hot afternoon sun should be provided.

SOIL: Light, rich loamy soil is best suited for flowers. To improve heavy soils and conserve moisture, add peat moss and sand liberally. Spade the soil deeply and make the top 3 or 4 inches as fine and loose and smooth as possible. Well rotted manure worked into the soil before planting may be used if desired.

SOWING THE SEED: Fine seeds should be planted on the surface and a very little soil sprinkled over them, after which they should be pressed firmly to the soil with a board. Medium size seeds may be planted twice the depth of their diameter, or from 1/4 to 1/2 inch deep. Larger seeds, such as sweet peas, should go deeper.

WATERING: After planting, water with a fine spray to avoid washing the soil from the seed. Keep top soil damp—not wet—until germination. When large enough, thin plants from 2 to 12 inches, depending upon the variety. Water plants thoroughly ONLY at intervals—not daily. Watering depends upon the time of year, texture of soil and nature of plant.

FERTILIZER: We recommend the use of an all-purpose commercial fertilizer as a top dressing after the plants are up, to stimulate and properly feed the plants.

AMARANTHUS

(*Love Lies Bleeding*)—Annual plant with strikingly beautiful ornamental foliage. Excellent for tropical effect.

CAUDATUS—Bright crimson flowers in drooping panicles. Height 2 to 3 feet. Open, sunny location. Pkt. 10c.

Our Complete Planting Charts
Page 34

ANEMONES (Wind Flower)

GIANT FRENCH MIXED—Easily grown from seed. Plant seed during fall and winter months. Pkt. 25c.

ASTER (a)

No other flower combines so much beauty with grace and usefulness and with which more brilliant effects can be achieved. From July until September this flower reigns supreme in the garden, not equaled by any other. We offer our patrons remarkably fine strains, producing perfect flowers of great beauty. To do well, Asters require a well pulverized soil, always kept open by continuous cultivation.

IMPROVED CREGO WILT RESISTANT — The large shaggy flowers with long curled petals are not unlike the ostrich feather for which they are named. The plants are strong, heavily branched and grow about 2 1/2 feet in height.

Blue Flame—Bright navy blue. Pkt. 10c.

Crimson—Glowing deep rose-crimson. Pkt. 10c.

Cattleya—Fascinating shade of orchid. Pkt. 10c.

Purple—Showy violet purple. Pkt. 10c.

Enchantress—Luscious shade of lively salmon rose. Pkt. 10c.

Pink—Beautiful shell pink. Pkt. 10c.

Rose—Lovely bright carmine rose. Pkt. 10c.

White—Purest white, large and fluffy Pkt. 10c.

Crego's Finest Mixed. Pkt. 10c.

IMPROVED GIANTS OF CALIFORNIA — This Aster bids fair to become a universal favorite. Characterized by the well-known Crego type of flower, combined with the Beauty Aster's long, non-lateral, branching stems, the California Giants, double type Aster, stands at the head of the list.

Finest Mixed. Pkt. 15c.

Aster, Super Giant El Monte—Deep glowing crimson, composed of abundant quantities of daintily interlaced plume-like petals, the flowers are extremely large and fluffy, borne on heavy non-lateral, basal branched stems. Pkt. 15c.

Aster, Super Giant Los Angeles—The flowers are fully double, 6 to 8 inches across, graceful and delicately interlaced. Long, stiff stems, bearing the large shell pink flowers smartly upright. Pkt. 15c.

Colorful Spring Flowers Beautify the Home

BACHELOR BUTTON or CORNFLOWER (Double)

(*Centaurea Cyanus*) Hardy annual requiring little care. Height 12 to 14 inches. Nice as a cut flower alone or in mixed bouquets.

FLORIST'S BLUE—Large flowers, bright deep blue. Pkt. 10c, oz. 60c.

MIXED COLORS—Light and dark blues, white, rose pink and light red shades. Pkt. 10c, oz. 60c.

BALSAM

(*Lady Slipper*) Tender annual used for beds and borders. Height about 2 feet. Camellia-like flowers. Plant in semi-shade during the spring months.

MIXED COLORS—Pkt. 10c, 1/4 oz. 30c, oz. 75c.

CACTUS

MIXED VARIETIES—Including many rare sorts. Pkt. 25c, 5 pkts. \$1.00.

CALENDULA

(*Pot Marigold*) One of the most popular and showiest of the winter and spring blooming flowers. Used for beds, borders and cut flowers. Plant from September throughout the winter and early spring months. Height about 12 to 18 inches. Thin to 12 inches apart.

CAMPFIRE SENSATION IMPROVED — Extra large, deep orange with scarlet sheen. See color illustration, page 24. Pkt. 15c, 1/4 oz. 30c, oz. 90c.

CHRYSANTHA FLOWERED — Resembling a chrysanthemum in an exquisite buttercup yellow. Pkt. 10c, 1/2 oz. 40c, oz. 75c.

ORANGE SHAGGY—Petals deeply fringed and overlapping. Bright orange. Pkt. 10c, 1/2 oz. 40c, oz. 75c.

ORANGE KING—Deep orange red with dark center. Large flowers. Pkt. 10c, oz. 40c.

LEMON QUEEN—Rich clear lemon yellow with dark center. Large flowers. Pkt. 10c, 1/2 oz. 40c, oz. 75c.

APRICOT QUEEN—Soft apricot shaded orange, dark center. Large flowers. Pkt. 10c, oz. 45c.

DOUBLE MIXED CALEDULAS—Large flowers, long-stemmed varieties and colors. Pkt. 10c, oz. 40c.

CALLIOPSIS

Showy and beautiful free-flowering annual thriving in most any location except complete shade. Have a long blooming period and make lovely bouquets. Plant from September to May. Height 2 to 3 feet.

BI-COLOR DWARF MIXED—Yellow with dark center. Pkt. 10c, oz. 45c.

CANDYTUFT

A hardy annual producing large flower clusters resembling hyacinths. Plant during the fall, winter and early spring months. Height 12 to 18 inches. Fine for borders or cutting.

UMBELLATA MIXED—Pkt. 10c, oz. 40c.

GIANT WHITE HYACINTH FLOWERED — A giant Candytuft bearing immense snowy white spikes, which often measure 10 inches or more. Don't fail to give this a trial. Pkt. 10c, 1/2 oz. 60c, oz. \$1.00.

CANTERBURY BELLS, Campanula

CALYCANTHEMA (b) (Cup and Saucer)—Perhaps the most beautiful type; distinct in form, with large bell or cup-shaped flowers surrounded at the base by a large calyx of similar color, the whole resembling a cup and saucer. In separate colors—pink, blue, white and purple.

Finest Mixed. Pkt. 10c.

ANNUAL CANTERBURY BELLS (a) — When planted from seed, loads itself with flowers in less than five months, in colors the same as the biennial type, including the various shades of blue, pink, rose, and white.

Finest Mixed. Pkt. 15c.

CASTOR BEAN

(*Ricinus*) Tall, tree-like, excellent for quick shade. Annual. Very ornamental with large attractive leaves, producing a beautiful tropical effect. Height 6 to 8 feet. Plant in spring and early summer months. Pkt. 10c, oz. 20c, 1/4 lb. 60c.

SWEET SULTAN

CENTAUREA MOSCHATOS—The large thistle-like blossoms are a well known favorite growing to a height of 2 1/2 feet. Colors range from deep lavender, rose, pink, yellow and white. Plant in the open during the fall months. **Mixed Colors.** Pkt. 10c, 1/4 oz. 30c, oz. 90c.

CARNATION

Plant from September until April. Cover seed lightly and protect until established. Transplant to about 12 inches apart. Perennial. Plant in semi-shade during the summer months. Height about 18 inches.

MARGUERITE MIXED—Flowers mostly double in an excellent range of colors. Pkt. 10c, 1/4 oz. 50c, oz. \$1.75.

CHABAUD'S GIANT FLOWERING IMPROVED

—A magnificent strain and one of the largest carnations grown. Ten to 20 stalks to the plant. About 95 per cent double. Height 19 to 24 inches. Pkt. 20c, 1/8 oz. \$1.00, 1/4 oz. \$1.75.

Celosia, Cristata

COCKSCOMB, Celosia (a)

Very attractive and showy, somewhat tender annual, producing massive heads in rich shades of crimson and yellow flowers. Should be started in hotbeds and transplanted to rich soil after warm weather comes. Set plants a foot or more apart.

CRISTATA — Choice mixed; height, 9 to 18 inches. Pkt. 10c.

PLUMOSA (Improved Feather Type)—Choice mixed. Pkt. 10c.

CELOSIA CHILDSI (Chinese Woolflower)

Flowers resemble huge balls of wool. Plant in early spring in a sunny situation. When cut and hung to dry make unusual everlasting flowers. Height 3 feet.

MIXED COLORS—Include crimson, pink, rose and yellow. Pkt. 10c, 1/8 oz. 30c, 1/4 oz. 50c.

Candytuft, Giant Hyacinth Flowered

Calendula, Chrysanth

Carnation, Chabaud's Giant

Showy Flowers Make Beautiful Gardens

Cosmos, Sensation Dazzler

CHRYSANTHEMUM (Annual)

Plant seed during the spring months and disbud for large blooms.

SINGLE and DOUBLE MIXED — Many bright shades and varieties. Pkt. 10c, 1/2 oz. 35c, oz. 60c.

CLARKIA

A hardy annual very popular as it thrives well in semi-shady locations. Handsome flowers on leafy stems—nice for beds or cutting. Height 18 inches. Plant in the fall or early spring.

SINGLE AND DOUBLE MIXED—Many colors ranging from bright crimson, orange, salmon, pink and purple. Pkt. 10c, 1/4 oz. 35c, oz. \$1.00.

COLUMBINE

(*Aquilegia*) Plant in semi-shade during the fall and winter months. Will make vigorous plants with delicate lacy-like foliage and bloom abundantly the following spring. Perennial. Height about 2 to 3 feet.

LONG-SPURRED HYBRIDS — A superb strain producing very beautiful large flowers in all shades of blue, lavender, yellow, rose and white. Mixed colors: Pkt. 15c, 1/16 oz. 40c.

COREOPSIS

Plant seed during the fall and winter months in any location except all shade. The lovely golden yellow flowers have a long blooming period throughout the spring and early summer months. Height 2 ft. Nice for cutting. Perennial.

NEW DOUBLE SUNBURST—Large double flowers. Very bright and showy. Pkt. 10c, 1/2 oz. 75c.

COSMOS

For a lovely garden during the summer and fall months, plant both early and late varieties of Cosmos throughout the spring and early summer months. Very graceful finely cut foliage with large, long-stemmed flowers. Plants are bushy, ranging from 5 to 8 feet high. Height may be controlled by pinching out center bud. Effective in any situation and make lovely cut flowers. Blooms within 8 to 10 weeks. Annual.

Early Double Crested

Flowers large and mostly double with a crest of narrow petals in the center. Mixed colors: Pkt. 15c, 1/8 oz. 40c, 1/4 oz. 75c, 1/2 oz. \$1.25.

Orange Yellow Cosmos

EARLY KLONDIKE ORANGE FLARE — Bright orange. Blooms very early. Dwarf. Pkt. 10c, 1/4 oz. 25c, oz. 75c.

Clarkia, Elegans

Sensation Cosmos

SENSATION MIXED — Very large flowers in colors of deep rose, light pink and white. Pkt. 10c, 1/4 oz. 20c, 1/2 oz. 35c, oz. 60c.

SENSATION DAZZLER—New. Luscious shade of rich deep velvety maroon. Flowers immense, four inches across with broad heavy fluted petals. Excellent for cutting. Pkt. 15c, 1/4 oz. 35c, 1/2 oz. 60c, oz. \$1.00.

SENSATION PINKIE—Flowers of immense size in a delightful bright rose pink. Pkt. 15c, 1/4 oz. 25c, 1/2 oz. 40c, oz. 75c.

DAHLIAS

UNWIN'S DWARF HYBRIDS MIXED — Miniature semi-double flowers of charming color. Height 18 to 24 inches. Sow seed in beds or flats and transplant to permanent location. Pkt. 25c.

Long Spurred Columbine

Coreopsis, Double Sunburst

DAISIES

Not all Daisies look alike, for in this group are some of the finest garden flowers. Easy to grow, sure to bloom and dependable for bouquets for a long time each summer. See also Arctotis and Dimorphotheca, for winter bloom.

Double Daisy

(*Bellis Perennis*) Plant early in the fall for early spring blooms at which time it blossoms freely. Nice for borders as it grows only 4 to 5 inches high.

MIXED COLORS—Pkt. 20c.

Shasta Daisy

A perennial which may be planted from early fall until late spring. Does well in any situation except complete shade. Valuable for bedding and borders and makes a lovely cut flower. Glistening white petals with yellow center.

ALASKA—The best large flowered single variety. Long, strong stems. Pkt. 10c, 1/8 oz. 40c, 1/4 oz. 65c.

GIANT DOUBLE (DIENER'S STRAIN) — Very large and about 80 per cent very double, resembling a delicate shaggy chrysanthemum. New and unusual. Pkt. 25c.

Painted Daisy

(*Annual Chrysanthemum*) Daisy-like flowers are varied and many colored. Large blooms on long stems, making them particularly valuable for cut flowers. Plant during the fall months. Height to about 2 1/2 feet. All colors mixed: Pkt. 10c, oz. 45c.

DELPHINIUM

(*Perennial Larkspur*) Tall spikes heavily flowered. Sow seed during the early fall months in the open where they will receive high shade during the flowering period. Height 3 feet.

BELLAMOSUM—A deep royal blue. Pkt. 15c, 1/8 oz. 45c.

WREXHAM HYBRIDS — A mixture of lovely blues, lavender and mauve shades. See color illustration page 25. Pkt. 15c, 1/8 oz. 30c.

Flowers Have a Place in Your Victory Garden

DIANTHUS

(Chinese Pinks) Hardy annuals, bearing beautifully colored single and double blossoms. Grows about 12 inches high. Plant early in the fall in rows where plants are to remain. Thin to 8 inches apart.

HEDDEWIGI DOUBLE MIXED—All colors in scarlet, pink, and white. Pkt. 10c.

HEDDEWIGI SINGLE MIXED—Fine selection of colors. Pkt. 10c.

BLUE LACE FLOWER

DIDISCUS COERULEUS—An annual about 18 inches high. Beautiful clusters of light blue flowers resembling lace, on long stems. Plant in the open where plants are to remain. Easily grown although seed germinates slowly. Keep damp, use a light mulch on top soil. Pkt. 10c.

DIGITALIS

(Foxglove) Particularly adapted to the higher altitudes but will do well in warmer climates when planted in partial shade. Tall growing plants with very showy blooms. Annual.

FINEST MIXED—Salmon, yellow, purple, rose and white with blotched throats. Pkt. 10c.

EUPHORBIA

Strong growing annual about 2 feet in height. The flowers are small. Grown particularly for its very ornamental foliage.

VARIEGATA (SNOW ON THE MOUNTAIN)—Leaves heavily margined white. Pkt. 10c.

HETEROPHYLLA (ANNUAL POINSETTIA or MEXICAN FIRE PLANT)—Bushy plant growing to a height of 3 feet. In mid-summer center of leaves turn scarlet giving the general effect of the poinsettia. Pkt. 10c.

EVENING SCENTED STOCKS

A delightful free-flowering annual, 6 to 8 inches in height. Flowers are purple and are noted for their fragrance emitted during the evening. Plant during fall and winter months. Pkt. 10c.

FORGET-ME-NOT

(Myosotis) Small blue star-like flowers in clusters. Plant in the early spring months and transplant to a cool, damp location. Annual. Height 1 foot. Pkt. 20c.

FOUR O'CLOCK

(Marvel of Peru) Symmetrical bushes growing to a height of 2 feet and bearing red, yellow or white flowers. Plant during the early spring months. All colors mixed: Pkt. 10c, oz. 30c.

GERANIUM

Geraniums will bloom the first year from seed if planted early in the fall. Our mixture contains numerous shades of color, including many of the newest sorts. Pkt. 25c.

TRANSVAAL DAISY

GERBERA JAMESONII HYBRIDS—Large daisy-like blossoms with flower stems rising to a height of about 2 feet. Colors range from white to crimson, pink, yellow and lilac shades. Start carefully under a light mulch in a sandy, well-drained soil. Pkt. 25c.

GAILLARDIA

Effective and valuable summer flowering plants for bedding, borders and for cutting. Sow seed from early fall on through the spring months for a succession of blooms throughout the spring and summer months. Height 1½ ft.

SINGLE AND DOUBLE MIXED—Very large flowers in splendid combinations of crimson, red, yellow and gold. Perennial. Pkt. 10c, ¼ oz. 25c.

THE DAZZLER—Perennial. A vivid orange red with outer edge of petals a golden yellow. Very large. See color illustration page 24. Pkt. 15c, ¼ oz. 50c.

INDIAN CHIEF—Large flowered and single. Metallic bronzy red with mahogany-brown center. Annual. Pkt. 15c, ¼ oz. 25c.

Transvaal Daisies, Jamsoni Hybrids

Easily Grown Showy Flowers

FOR SUMMER

Cockscomb	Nasturtium
Gaillardia	Sunflower
Hollyhock	Verbena
Marigold	Zinnia

FOR WINTER

African Daisy	Petunia
Calendula	Poppies
Candytuft	Snapdragons
Larkspur	Stocks

Dianthus, Heddewigi Single Mixed

Shasta Daisies

Dahlia, Unwin's Dwarf Hybrids

All Flower Seeds Are Shipped Postpaid

Godetia, Tall Double

GEUM

Plant seed in the spring for a long blooming period during the summer months. Flowers in small clusters on long strong stems. Perennial.

MRS. BRADSHAW—Dble. Bright red. Pkt. 15c.

MIXED VARIETIES—Orange, red and yellow shades. Pkt. 15c.

GODETIA

Very lovely annual plants specially suited for semi-shady locations. The flowers are bright and colorful somewhat resembling the Azalea in form. Stems are long, making them valuable for cut flowers.

TALL DOUBLE MIXED—Many colors including crimson, salmon, pink and white. Pkt. 10c, 1/4 oz. 30c.

GYPSOPHILA

(Baby Breath) The light feathery sprays of tiny flowers are very popular for mixing with other flowers. Sow seed during the fall months where they are to remain. Height about 18 inches.

ELEGANS GRANDIFLORA—Pure white. Pkt. 10c, oz. 35c.

ELEGANS CARMINE—A beautiful deep carmine in color. Pkt. 10c, oz. 60c.

Hollyhock, Indian Spring

HELIOTROPE

Small flowers but very fragrant. Forms a large plant 4 to 8 feet high and requires a roomy situation. Plant during the early spring months.

DARK BLUE—Pkt. 25c.

HOLLYHOCKS

Indispensable wherever height and color are required in the garden. The giant stalks with closely placed double, semi-double or single flowers rise to a height of 6 to 7 feet. Seed sown in the fall will bloom throughout the following season.

MIXED—Selected seed from the most choice double flowers in all colors. Mixed: Pkt. 10c, 1/4 oz. 60c.

HOLLYHOCK INDIAN SPRING—Silver Medal, All-America Selection, 1939. Semi-double flowers of bright rose and rosy carmine. Pkt. 15c, 1/4 oz. 65c.

LOBELIA

CRYSTAL PALACE—Plants very compact profusely covered with rich blue flowers. Height 4 inches. Excellent border plant. Sow seed during the fall months. Pkt. 15c.

Lobelia, Crystal Palace

HUNNEMANNIA

(Mexican or Giant Yellow Tulip Poppy) Height 2 feet. Bushy perennial, having a long blooming period. Similar to the California Poppy but of a lighter canary yellow. Nice for cutting.

SUNLITE—Gorgeous semi-double. Clear bright yellow. Pkt. 15c, 1/4 oz. 50c.

GIANT SINGLE—Magnificent golden yellow flowers with orange anthers. Pkt. 10c, 1/4 oz. 25c.

ICE PLANT

(Mesembryanthemum Crystallinum) This variety is grown for its glistening foliage. Leaves large, fleshy and covered with glistening dots. Height 8 inches. Plant fall and spring. Pkt. 10c.

BURNING BUSH

KOCHIA CHILDSI (Summer Cypress)—A highly ornamental annual plant having a cypress-like appearance. A bright green until autumn when it turns to a bright red from which it gets two other names, "Mexican Fire Plant" and "Burning Bush". Plant during the spring months. Pkt. 10c, oz. 30c.

LANTANA

Perennial—Grows only 2 to 3 feet high but bears a profusion of verbenalike flowers in a wide range of gorgeous colors. Is cut back by frost but renews its runners each year, becoming more luxuriant each year. Plant through spring and early summer months.

Mixed Colors—Pkt. 10c, 1/4 oz. 50c.

LINARIA

(Baby Snapdragons) Pretty annuals—attractive in beds and as cut flowers. Plant through the fall and early spring months. Height 2 feet.

MIXED—Include blue, rose, lavender, yellow, etc. Pkt. 10c, 1/2 oz. 40c, oz. 75c.

LINUM

(Scarlet Flax) A hardy annual of slender and graceful appearance with fine foliage and bright red flowers. It makes beautiful beds and borders and is largely used for mass display. Plant in the early fall; also early spring. Height 1 1/2 to 3 feet. Pkt. 10c, oz. 50c.

PERENNE (BLUE FLAX)—Like Scarlet Flax but producing a profusion of deep blue flowers. Pkt. 10c.

EVERLASTING PEA

LATHYRUS LATIFOLIUS, Fine Mixed—A hardy perennial climber of great beauty with elegant sweet pea-like flowers in great profusion; height 6 to 8 feet. Pkt. 10c, 1/2 oz. 60c, oz. \$1.00.

Geum, Mrs. Bradshaw

Gypsophila elegans grandiflora

Smith's Select Quality Assures Success

Nicotiana

LARKSPUR

Few annuals in our gardens equal the Larkspurs in usefulness and charm. The double stock flowered strains are heavily branched, grow to a height of 3 feet or more and produce a continuous succession of blooms over a long period during the spring months. Sow seed in the open during the fall months.

GIANT DOUBLE STOCK FLOWERED

Light Blue	Lilac
Dark Blue	White
Rose	Lustrous Carmine

Each color: Pkt. 10c, 1/4 oz. 35c, oz. \$1.00.

Giant Stock Flowered Mixed—All above colors in a grand mixture. Pkt. 10c, 1/4 oz. 30c, oz. 90c.

GIANT IMPERIAL LARKSPURS

A superior strain, upright in habit, branching from the base. Very double. See color illustration page 25.

Superb Mixed—All colors. Pkt. 15c, 1/4 oz. 35c, 1/2 oz. 60c, oz. \$1.00.

Nemesia

LUPIN

Exceedingly attractive annual and easily grown. The handsome spikes covered with a profusion of blooms grow to a height of 2 to 3 ft. Plant during the fall, winter and spring months. Thin to about 12 inches apart. Semi-shade.

HARTWEGI—Dark blue, Roseous pink and Mixed colors. Each: Pkt. 10c, oz. 50c.

MIGNONETTE

A hardy annual growing from 6 to 12 inches high. Can be grown in shady places. Plant during the fall, winter and spring months.

GIANT MACHET, Mixed—Pkt. 10c.

NEMESIA

A very pretty and effective annual 1 foot high, used for beds and borders and edging. The flowers resemble a miniature snapdragon and have a color range of rose, yellow, orange, blue, etc.

MIXED COLORS—Pkt. 15c.

Larkspur, Giant Imperials

NEMOPHILA

(**Baby Blue Eyes**) Nice for carpet bedding, growing about 6 inches high. Blossoms cup-shaped.

INSIGNIS BLUE—Pkt. 10c, oz. 40c.

NICOTIANA

(**Flowering Tobacco**) A hardy annual growing 3 to 4 feet high and of branching habit. The plants are covered with slender tubular flowers all summer. They may be used as a background or as single specimens. Popular for its evening fragrance.

SANDERAE MIXED—A new, large, flowering type with various bright colored blossoms. Pkt. 10c.

NIGELLA

Hardy annual 1 foot high, oddly shaped blossoms, elegant foliage. Sow during fall and winter months.

MISS JEKYLL—A long-stemmed sort with beautiful cornflower-blue blossoms. Pkt. 10c, 1/2 oz. 40c, oz. 75c.

NASTURTIUMS

Plant in February and March for spring flowers and early in the fall in protected places for fall blooming. Nasturtiums prefer dry, rather rocky soils such as we usually call "poor" soil and bear their flowers in such locations in greater profusion than in a rich soil, where they run too much to foliage.

Semi-Double Sweet-Scented Nasturtiums

SCARLET GLEAM—Bright red extra large flowers. Bush type which throw out runners averaging 12 to 18 inches. Pkt. 10c, oz. 35c.

GOLDEN GLEAM—Like Scarlet Gleam but of an attractive bright golden yellow color. Pkt. 10c, oz. 35c.

GLORIOUS GLEAM HYBRIDS—Same habit and growth as Golden Gleam and Scarlet Gleam. A glorious assortment of brilliant shades. Pkt. 10c, oz. 35c.

Single Nasturtiums

SPECIAL TALL SINGLE MIXED—All single flowers, unusually large. Mixture contains many new colors and varieties as well as the old-fashioned ones. Pkt. 10c, oz. 25c.

SPECIAL DWARF SINGLE MIXED—Compact plants entirely without range as the Tall sorts. Pkt. 10c, oz. 25c.

DWARF DOUBLE GEM MIXTURE—Ideal annual for borders and edging use. The plants are truly dwarf and compact. The flowers are of good size, sweet-scented and semi-double. Colors include all shades and many spotted varieties. Pkt. 15c, oz. 35c.

Nasturtium, Glorious Gleam Hybrids

Marigolds . . . for Showy Summer Flowers

Marigold, Gigantea Sunset Giants

NIEREMBERGIA

(*Hippomanica*) Plants form a dense mat, 6 inches high, 1 foot or more across, and are thickly covered with beautiful lavender blue cup-shaped flowers. Plant during the fall and winter months. Highly recommended. **Pkt. 25c.**

PURPLE ROBE—New improvement with deep non-fading flowers. Same compact low growth, fully as free-blooming. Excellent for edging the flower border. **Pkt. 25c.**

ANNUAL PHLOX Phlox Drummondii

Large verbena-like flower growing in clusters on long strong stems. Compact plant. Fine for bedding, borders and cut flowers. Plant in the open in the fall and winter months for a gorgeous display of bloom during the spring months.

GIGANTEA ART SHADES, MIXED—Individual flowers immensely large. Color tones beautiful and unusual. Height 12 to 18 inches. Mixed colors. **Pkt. 15c, 1/8 oz. 65c, 1/4 oz. \$2.00.**

Phlox Drummondii

Marigold, Pot O'Gold

Nierembergia Hippomanica

MARIGOLDS

Tall and Dwarf, Provide Brilliance of Color all Summer

The African and French Marigolds supply a profusion of gorgeous blooms throughout the summer and fall months. Sow seed during early spring and summer months in a sunny exposure, preferably in light soil. Cover seed about 1/8 inch deep and when up thin to 10 or 12 inches apart.

AFRICAN MARIGOLDS

Produce their large flowers on long tall stems standing erect on the plant which attains a height of 18 inches to 2 1/2 feet. Make splendid cut flowers.

TALL AFRICAN DOUBLE ORANGE—Very large golden orange flowers. **Pkt. 15c, 1/8 oz. 30c, 1/4 oz. 55c, oz. \$1.60.**

TALL AFRICAN DOUBLE LEMON—Very large bright clear yellow flowers. **Pkt. 15c, 1/8 oz. 30c, 1/4 oz. 55c, oz. \$1.60.**

TALL AFRICAN DOUBLE MIXED—The above colors mixed. **Pkt. 10c, 1/4 oz. 50c, oz. \$1.50.**

GUINEA GOLD—The flowers of this exquisite Marigold are loosely ruffled, semi-double and of medium size. The color is a brilliant golden orange. **Pkt. 10c, 1/4 oz. 35c, oz. \$1.00.**

GIGANTEA SUNSET GIANTS MIXED—Flowers are loosely formed with the heavy petals gracefully overlapping. Gigantic in size with a color range of deep orange through all shades of yellow. Very tall. **Pkt. 15c, 1/4 oz. 45c, oz. \$1.25.**

MARIGOLD, GOLDSMITH—See color illustration page 25. Giant chrysanthemum-flowered golden orange, base branching and with good stems for cutting. Full double flowers on strong bushy plants of from 2 to 4 feet in uniform height. Early and free-blooming. **Pkt. 15c, 1/4 oz. 65c.**

GIGANTEA POT OF GOLD, DWARF—10 to 12 inches. Early flowering, producing a mass of intense dazzling orange flowers, of immense size. **Pkt. 20c, 1/8 oz. 40c, 1/4 oz. 75c.**

FRENCH MARIGOLDS

The French Marigolds are used principally for beds and borders. The individual plants are spreading in habit and are covered continuously with a mass of gorgeous blooms throughout the summer and fall months. Height 12 to 14 inches.

DWARF DOUBLE HARMONY HYBRIDS—Flowers medium size with a color range of golden orange, golden yellow, innumerable blotched and striped combinations of golden orange and yellow and maroon contrasting, all with crested centers. Blooms within 75 days. **Pkt. 10c, 1/4 oz. 35c, oz. \$1.00.**

DWARF HARMONY—Exquisite blooms with cushion-like centers of fluted, deeply cut golden orange centers surrounded by several rows of reddish brown outer petals. **Pkt. 10c, 1/4 oz. 35c, oz. \$1.00.**

DWARF DOUBLE FRENCH MIXED—Many combinations in golden orange, lemon yellow, maroon and mahogany. **Pkt. 10c, 1/4 oz. 20c, oz. 50c.**

**ALL FLOWER SEEDS SENT
POSTPAID**

Nierembergia, Purple Robe

NIEREMBERGIA PURPLE ROBE

A new development of the popular *Nierembergia hippomanica* with deep purple flowers. Free flowering and very worth while. Pkt. 25c, 5 pkts. \$1.00.

FRENCH MARIGOLDS

The French Marigolds (right) are used principally for beds and borders. The individual plants are spreading in habit and are covered continuously with a mass of gorgeous blooms throughout the summer and fall months. Height 12 to 14 inches.

MARIGOLD, DWARF DOUBLE HARMONY HYBRIDS

Flowers medium size with a color range of golden orange, golden yellow, innumerable blotched and striped combinations of golden orange and yellow and maroon contrasting, all with crested centers. Blooms within 75 days. Pkt. 10c, 1/4 oz. 35c, oz. \$1.00.

DELPHINIUM GOLD MEDAL HYBRIDS

Tall stately Delphiniums, with long spikes of double, lovely colored flowers are fine toward the back of the border. These hybrids are among the best. Pkt. 15c, 1/8 oz. 30c, 1/4 oz. 50c.

COSMOS, SENSATION DAZZLER

Luscious shade of rich deep velvety maroon. Flowers immense, four inches across with broad heavy fluted petals. Excellent for cutting. Pkt. 15c, 1/4 oz. 35c, 1/2 oz. 60c, oz. \$1.00.

CALENDULA, CAMPFIRE SENSATION IMPROVED

One of the finest winter flowers, for its large showy brilliant orange flowers have excellent form and are fully double. Showy in beds and fine for cutting. Pkt. 15c, 1/4 oz. 35c, oz. 90c.

ARCTOTIS HYBRIDS MIXED

Flowers in many shades of pink, rose, yellow, etc., with a dark disc in center. A half-hardy annual growing about 1 foot high. Free flowering. Pkt. 15c, 1/16 oz. 60c.

AGERATUM MIDGET BLUE

This very dwarf variety forms very compact plants, freely covered with fluffy blue flowers over a long season. Pkt. 25c, 5 pkts. \$1.00.

MARIGOLD GOLDSMITH

One of the newer Chrysanthemum flowered Marigolds—which are among our showiest summer flowers. Pkt. 25c, 5 pkts. \$1.00.

LARKSPUR, GIANT IMPERIAL

Showy, free-flowering annuals with finely cut leaves and tall spikes of double flowers. Mixed. Pkt. 15c, 1/4 oz. 35c, 1/2 oz. 60c, oz. \$1.00. See listing page 21

SEMI-DOUBLE SWEET-SCENTED NASTURTIUMS

SCARLET GLEAM—Bright red extra large flowers. Bush type which throw out runners averaging 12 to 18 inches. Pkt. 10c, oz. 35c.

GOLDEN GLEAM—Like Scarlet Gleam but of an attractive bright golden yellow color. Pkt. 10c, oz. 35c.

GLORIOUS GLEAM HYBRIDS—Same habit and growth as Golden Gleam and Scarlet Gleam. A glorious assortment of brilliant shades. Pkt. 10c, oz. 35c.

PHLOX, GIGANTEA ART SHADES, MIXED

Individual flowers immensely large. Color tones beautiful and unusual. Height 12 to 18 inches. Mixed colors. Pkt. 15c, 1/8 oz. 65c, 1/4 oz. \$2.00.

SCABIOSA, GRANDIFLORA MIXED

The flowers grow on long wiry stems, 2 1/2 feet high, bloom profusely and are a lovely addition to the garden or in bouquets. All colors mixed. Pkt. 10c, 1/4 oz. 30c.

GAILLARDIA, THE DAZZLER

Sunshine and warmth bring out the glory of this vivid flower. Of medium height, the bright golden yellow flowers have orange-red centers. Pkt. 15c.

PORTULACA, DOUBLE MIXED

One of the best low growing plants for dry sunny places. Six inches in height and profuse with its double blooms. Wide color range. Pkt. 20c, 1/8 oz. \$1.25, 1/4 oz. \$2.00.

VINCA ROSEA, PERIWINKLE

Lovely dark glossy green foliage and an abundance of phlox-like flowers in either pink or white. Mixed colors. Pkt. 15c, 1/4 oz. 50c.

STOCKS, GIANT DOUBLE IMPERIAL

Wonderful new strain, branching in habit, very double florets in great profusion on long, strong stems. Remember the most delicate plants are usually the ones that produce the best double flowers. Mixed. Pkt. 10c, 1/8 oz. 60c, 1/4 oz. \$1.00.

Smith's FLOWER SEEDS

ZINNIAS—California's Most Popular and

ZINNIAS

Gold Medal Dahlia Flowered

Gold Medal Dahlia Flowered Zinnias

The **DAHLIA FLOWERED ZINNIA** is the most popular of all the Zinnia types grown. They resemble a Dahlia in appearance, and when in full bloom often measure 5 and 6 inches in diameter. The plants are of medium height, 2½ to 3 ft., very robust, bearing many strong stems of the fully double, beautifully colored flowers. Excellent for garden show or for cut flowers.

- WILL ROGERS**—Loveliest and most brilliant scarlet-red.
- GOLDEN DAWN**—Golden yellow, almost a light orange.
- ELDORADO**—Salmon apricot in delightful shades.
- EXQUISITE**—Light rose with deep rose center.
- GOLDEN STATE**—Yellow orange in bud turning to deep orange.
- DREAM**—Deep rosy lavender.
- POLAR BEAR**—A very large pure white.
- ILLUMINATION**—A deep soft rose.
- ORIOLE**—An immense orange and gold bicolor.
- CRIMSON MONARCH**—Deep crimson. Flowers very large.
- CANARY BIRD**—Delicate primrose yellow.
- PURPLE PRINCE**—Dark purple.

Each Color: Pkt. 15c, ¼ oz. 50c, ½ oz. 80c, oz. \$1.50.

GOLD MEDAL DAHLIA FLOWERED ZINNIA MIXTURE—A blend of the very best types of Dahlia Flowered Zinnias. Pkt. 10c, ¼ oz. 35c, ½ oz. 65c, oz. \$1.25.

COLLECTION — The entire collection of 12 Dahlia Flowered Zinnias. Value \$1.80, for \$1.25, postpaid.

75c COLLECTION—6 15c pkts. 75c, postpaid.

The Zinnia is possibly more at home in the warmer sections of California than any other flower. It is sun-loving, very easy to grow and a favorite in thousands of gardens. We wish to stress the fact that our Zinnias are absolutely the best strains in existence. The Zinnia is strictly a hot weather plant and should not be planted until March. Plantings may be continued throughout the summer.

CULTURE—Plant after all danger of frost is over. The seed should be planted about one-half inch deep and the seed bed covered with a mulch of our horticultural peat moss or grass to conserve the top moisture. Plant in rich soil in rows at least three feet apart and thin out plants so they are about 12 inches apart. Never plant Zinnias in the shade as they delight in the full sunshine. Keep the rows free and clean from Bermuda grass and weeds and cultivate and irrigate often. To avoid mildew dust the ground around the plants with dusting sulphur as soon as the buds appear. If you follow these instructions we know your efforts will be rewarded.

Zinnia, Super Crown o' Gold, Pastel Tints

(See Back Cover for Illustration)

This new Zinnia has each petal overlaid at the base with deep golden yellow, while carrying out the individual flower color at the tip. It is of immense size—midway between the Dahlia Flowered and Giant Mammoth types. Grows to a height of 3 feet. The new pastel tints are bright, containing a wide range of pastel tints.

MIXED ONLY—Pkt. 15c, ⅛ oz. 25c, ¼ oz. 45c, 1 oz. \$1.50.

Zinnia Scabiosa Flowered

Medium size flowers composed of a row of broad rays or outer petals similar in form to the annual scabiosa surrounding a pincushion mass of smaller petals. About 2-2½ feet high. Excellent as a cut flower. All the lovely bright shades. **Mixed colors only.** Pkt. 15c, ¼ oz. 45c, oz. \$1.50.

Zinnia, Scabiosa Flowered Mixed

Most Colorful Summer Garden Flowers

Zinnia, Lilliput Pompon

Lilliput Zinnias, Pastel Mixture

Lovely pastel colors of this miniature zinnia are well worth a place in every garden. Small, about 1 inch across, they are very double. Plant in front part of the summer border. Height 12-18 inches. Pkt. 10c, 1/4 oz. 35c, oz. \$1.00.

Lilliput Pompon Zinnias

The Lilliput Zinnias are the most popular for cut flowers. The flowers are small, compact and symmetrical in shape, 1 to 1 1/2 inches in diameter, borne in great quantities on neat, compact plants, 18 to 24 inches in height. We offer the most popular of the brilliant shades.

CANARY YELLOW—Bright golden yellow.

WHITE GEM—Pure white.

ORANGE QUEEN—Golden orange.

SALMON ROSE—Unique shade of soft rose.

PURPLE—A rich deep purple.

CRIMSON GEM—Beautiful ruby red.

LILLIPUT POMPON MIXED—All bright shades.

Each: Pkt. 10c, 1/4 oz. 35c, oz. \$1.00.

LILLIPUT ZINNIAS

SPECIAL COLLECTION—Six varieties, one each of the 6 colors listed above. 60c value for 40c, postpaid.

NOVEL AND INTERESTING TYPES OF ZINNIAS

Dwarf Types of Zinnias

TOM THUMB ZINNIA—The compact plants of the dainty strain are 6 to 8 inches high and are covered with well formed flowers of the Lilliput type. There is a complete range of Zinnia colors in this mixture. Excellent for borders or for mass planting.

MIXED COLORS ONLY—Pkt. 15c, 1/4 oz. 60c, oz. \$1.75.

HAAGEANA DOUBLE (MEXICAN HYBRIDS)—Dwarf, plant carrying prettily marked flowers. Nice for bedding and make a brilliant display. Mixture contains many attractive colors and color combinations.

MIXED ONLY—Pkt. 15c, 1/4 oz. 50c, oz. \$1.50.

ZINNIA LINEARIS—Dwarf single variety. Flowers are small and a lovely shade of golden orange with a delicate lemon yellow stripe through each petal. The flowers are produced in great profusion, literally covering the plant which sometimes has a spread of as much as 2 feet by the end of the season. Pkt. 15c, 1/4 oz. 40c, 1/4 oz. 75c.

Giant Zinnia

Giant or Mammoth Zinnias

This strain is, in some ways, a companion type to the Dahlia Flowered. The plants are, however taller than the Dahlia Flowered type, reaching a height of 3 to 4 feet. The flowers are very large and well formed, with smooth topped, graceful appearance, the petals lying flat upon each other. The colors are very bright and clear and altogether it is one of the showiest of the large-flowered Zinnias.

GIANT LEMON QUEEN—Clear bright yellow

GIANT ORANGE QUEEN—New orange shade, exceptionally bright.

ENCHANTRESS—Light pink, rose center.

SCARLET QUEEN—Glowing deep scarlet.

GIANT PURITY—Large pure white.

GIANT—Lavender gem.

GIANT PURPLE QUEEN—Deep purple.

Each: Pkt. 10c, 1/4 oz. 40c, oz. \$1.25.

GIANT MAMMOTH MIXED—Many beautiful colors. Pkt. 10c, 1/4 oz. 35c, oz. \$1.00.

SPECIAL COLLECTION

GIANT OR MAMMOTH ZINNIAS

One each of 7 varieties, value 70c, for 50c
POSTPAID

Fantasy Zinnia (Crested and Curled)

The flowers of this type Zinnia have a graceful informal shaggy appearance. The petals are ray-like, curled and interwoven and are quite distinct from all other types of Zinnias. Flowers are of medium size, 2 1/2 to 3 in., and the plants grow to a height of about 2 1/2 to 3 feet.

FANTASY, WHITE LIGHT—Pure glistening white.

FANTASY, STAR DUST—Rich golden yellow.

FANTASY, ORANGE LADY—Bright deep orange.

FANTASY, ROSALIE—Beautiful shade of intense rose.

FANTASY, WILDFIRE—Rich dazzling scarlet.

Each Color: Pkt. 20c, 1/8 oz. 25c, 1/4 oz. 45c, oz. \$1.50.

FANTASY FINEST MIXED—All bright colors. Pkt. 15c, 1/4 oz. 35c, oz. \$1.25.

PETUNIAS ... Unexcelled for Beds and Borders

Petunia, All-Double America

Petunia Violacea

Petunia, Rose of Heaven

PETUNIAS

PETUNIAS cannot be equaled for beds and borders. They flower throughout the year even through the hot summer months. Start planting in September and continue through the spring months. Scatter seed thinly on an even well prepared soil and cover lightly with fine silt or sand, pressing firmly with a board so that seed adheres to the soil. A light mulch of barnyard fertilizer or peat moss is beneficial. Thin plants to 8 to 12 inches. Do not over water. Petunias grow from 1 to 1½ feet high, except miniature sorts and the dwarf single bedding types, which attain 8 inches or less.

New and Popular Petunias

ALL-DOUBLE AMERICA—Silver Medal, All-America Selections, 1943. America's first all-double Petunia to be introduced. It is the finest of all new flowers. Plants are compact and uniform, 1 foot high and 1½ feet across. The rose-pink flowers, 2 inches in diameter, fill the plant during fall, winter and spring, even through the summer. **Pkt. 50c.**

PETUNIA, GIANTS OF CALIFORNIA—Fringed and ruffled. Light and dark colors with attractive deep throats, many beautifully veined. **Mixed colors only. Pkt. 25c, 5 pkts. \$1.00.**

Petunia Hybrida Grandiflora, Giant Flowered

VELVET BALL—Plant is ball-shaped and compact. Height 8 inches. Flowers very large and a velvety blood red. **Pkt. 25c, 5 pkts. \$1.00.**

BURGUNDY—Rich wine red, contrasting white throat. Compact and dwarf. Very large flowers. **Pkt. 25c, 5 pkts. \$1.00.**

Petunia Hybrida Nana Erecta Dwarf Compact Bedding

SALMON SUPREME—Soft pastel salmon. **Pkt. 25c, 5 pkts. \$1.00.**

ROSY MORN IMPROVED—Soft rose, white throat. **Pkt. 15c, ½ oz. 75c.**

ROSE OF HEAVEN—Rich, brilliant rose, a trifle deeper than Rosy Morn. **Pkt. 15c, ½ oz. 75c.**

BLUE BEDDER—Finest bright mid-blue. **Pkt. 15c, ½ oz. 60c.**

Petunia Hybrida

SPREADING TYPE

PETUNIA, RADIANCE—See color illustration page 24. A very brilliant and rich rose or cerise color with brown veined yellowish throat. Begins blooming very early and profusely; of uniform height, branching nicely. An outstanding petunia. **Pkt. 25c.**

VIOLACEA—Deep velvety purple. **Pkt. 15c, ½ oz. 45c.**

HOWARD'S STAR—Velvety purple with pure white star center. **Pkt. 15c, ½ oz. 50c.**

TOPAZ ROSE—Fiery rose suffused gold; topaz color throat. **Pkt. 15c, 1/16 oz. 50c.**

WHITE KING—Very large pure white flowers. **Pkt. 15c, ½ oz. 45c.**

GEN. DODDS—A rich blood red. Flowers are large and free blooming. **Pkt. 15c, ½ oz. 45c.**

BLACK PRINCE—Balcony type. Deep velvety red. **Pkt. 20c, 1/16 oz. \$1.00.**

HYBRIDA MIXED—Very choice mixture of many lovely colors, including the striped and blotched. **Pkt. 10c, ½ oz. 40c, ¼ oz. 75c, oz. \$2.50.**

PLANTING SUGGESTIONS FOR A FLOWER BORDER

The flower border can be a very pleasing and colorful part of the garden. Most everyone has planted solid beds of one kind of flower, such as Zinnias. Other flowers blooming at the same time could be planted with them to offer contrast and variety and to give a wider choice of cut flowers. The dwarfier kinds are placed in the very front either in a continuous row or broken by bold bands of different kinds. Between the front planting and the rear which takes the tallest varieties we place those of intermediate height, always the taller behind the smaller. Choose your favorites from the suggestions below. Gypsophila, Nigella, Queen Anne's Lace, and Shasta Daisies blend their colors into a harmonious border.

For Spring and Summer Gardens

All Flower Seeds Are Shipped Postpaid

Salpiglossis Superbissima Mixed

PANSIES

PANSIES are so well known they need no description. For successful germination and lovely blooms, prepare the soil carefully. Plant seed during the fall months in a semi-shady location, in well moistened, finely pulverized soil, enriched with a slight amount of barn-yard fertilizer or bone meal. Cover seed lightly and firm soil. Keep beds moist but not soaking wet until plants are up. Transplant to 8 to 12 inches apart. Water young plants very sparingly to avoid damping off, but do not allow soil to dry out at any time. Annual.

STEELE'S GIANT MASTODON JUMBO MIXED

This is the original strain from Steele's Pansy Gardens and are the largest and most beautiful pansies grown. Many colors and color combinations. Stems very long and strong, standing well above the foliage. Pkt. 50c, large pkt. \$1.00, 1/16 oz. \$2.25, 1/8 oz. \$3.50, 1/4 oz. \$6.00.

GIANT SUPER MAPLE LEAF MIXED

One of the largest pansies grown. Immense flowers, long stems and brilliant colors. Large pkt. \$1.00, half size pkt. 50c, 1/16 oz. \$1.50, 1/8 oz. \$2.75, 1/4 oz. \$5.00.

SPECIAL LARGE FLOWERED SWISS GIANTS

Large size flowers of excellent uniform quality on long, strong stems. All colors and color combinations represented. Many frilled and sweet-scented. Pkt. 25c, 1/16 oz. \$1.50, 1/8 oz. \$2.50, 1/4 oz. \$4.00.

FINE MIXED PANSY

Medium size blooms, extremely free flowering. Especially desirable for larger beds and borders where a mass of color rather than size of the individual bloom is wanted. A full range of color. Pkt. 15c, 1/8 oz. \$1.50, 1/4 oz. \$2.50.

SALPIGLOSSIS

Very showy bedding or border plants, with richly colored, funnel-shaped flowers, which are purple, scarlet crimson, yellow, buff, blue and almost black. Height 2½ feet.

SUPERBISSIMA MIXED—Containing many lovely color combinations. Pkt. 10c.

SCABIOSA

(Mourning Bride or Pincushion Flower) Annual resembling a round pincushion. The flowers grow on long wiry stems, 2½ ft. high. They bloom profusely and are a lovely addition to the garden or in bouquets.

AZURE FAIRY—Blue. **CRIMSON.**
WHITE. **ROSE-PINK.**

Each color: Pkt. 10c, 1/4 oz. 30c.

GRANDIFLORA MIXED—All colors mixed. Pkt. 10c, 1/4 oz. 30c.

PYRETHRUM

ROSEUM—Large Marguerite-like flowers with fine fern-like foliage. Graceful and long lasting cut flowers. Height 2 ft. Plant during the fall and winter months.

SINGLE MIXED—Pkt. 10c.

Queen Anne's Lace Flower

This hardy annual grows to a height of 3 to 4 feet. The large loosely formed terminal clusters of tiny white flowers are used extensively as cut flowers. Plant during the fall and early winter months. Pkt. 10c, 1/4 oz. 25c.

RANUNCULUS

Full rose-like blooms on strong stems 1 ft. high. Grown from seed or bulbs. Flowers double, semi-double and single in shades of red, orange, gold, pink and white. Plant during the fall months in well drained soil and a sunny location.

MIXED COLORS—Pkt. 10c.

SALVIA

NEW DWARF SCARLET SAGE—The most brilliant colored flowers and extremely useful for bedding. Blooms are of fiery red crimson color, continuing to flower for a long time. Tender perennials. Plant in early spring. Pkt. 25c, 5 pkts. \$1.00.

SCHIZANTHUS

Unique irregular shaped notched and blotched flowers resembling the orchid. Colors are many and varied. Plant in the open during the fall months. Height about 1 ft. Annual. Pkt. 10c.

Scabiosa

ACME SPRAYS and DUSTS

Finer FLOWERS and ORNAMENTS

ACME ROTENONE GARDEN GUARD is an ideal insecticide for the home garden. Dust or spray. Non-injurious to human and warm blooded animals. Acts both as contact and stomach poison against a wide range of insects. 1 lb. sifter carton, 35c. 1 lb. pump gun, 59c.

ACME ARSENATE OF LEAD—Safe on tender foliage for the control of chewing insects on fruit trees, vegetables, tobacco, and many other plants. Controls grubs in lawns. 1 lb., 35c. 4 lb. bag, 75c.

ACME RED RIVER POTATO MIX—Dust or spray. Combining a patented copper fungicide with quick-killing arsenic. Kills potato bugs quicker—drives off flea beetles and leaf hopper—prevents blight—stimulates foliage. 1 lb., 35c. 4 lb. bag, 85c.

ROTENONE GARDEN SPRAY (NNOR) containing Rotenone kills most common garden bugs of both sucking and leaf eating types. You've got to wet them—to get them. NNOR penetrates the waxy or hairy covering, brings the tremendous power of Rotenone into action. 1 oz.35c 6 oz.\$1.00 16 oz.\$2.15 Gals.\$13.50

ACME EMO-NIK for the control of scale, red spider, mealy bug, white flies, rust mites, aphids, and many other common insects. A complete contact insect spray combining nicotine with a summer oil emulsion. Practically odorless when sprayed. 4½ oz., 35c. Pint, 65c. Quart, 95c.

ACME LIME SULPHUR—A standard 33° Baume lime and sulphur converted into a dry powder. For dormant spraying against scale, peach blight, leaf curl, and twig borer. For summer spraying against scab, soot, blotch, red spider, and mite. 1 lb., 35c. 5 lbs., \$1.47.

ACME APHIS SPRAY combines a soft spray soap with Black Leaf 40. Recommended for aphids (plant lice), thrip, leaf hopper, infesting rose bushes, flowers, shrubs, vines. 3 oz. collapsible tube, 35c; 12 oz., \$1.00.

Acme Scientific Rose and Flower Spray

A "system" of spray treatment for roses and flowers of all kinds. Eliminate guess work. Each set contains three separate items—A, B, and C—each scientifically made to combat one of the three major classifications of blight and insect pest. Mix all three together with water. Use regularly. Result: complete all-around protection. Surprisingly economical.

Sizes	Amount of Spray	No. of Roses Protected all season	Prices
No. 3.....	12 qts.....	7 to 12 bushes.....	\$0.95
No. 6.....	24 qts.....	15 to 25 bushes.....	1.50
No. 24.....	96 qts.....	60 to 100 bushes.....	4.00
No. 48.....	48 gals.....	120 to 200 bushes.....	6.00
No. 96.....	96 gals.....	240 to 400 bushes.....	9.75

ACME TOMATO DUST is especially prepared to control blight and worms preying on tomatoes. While specifically designed for tomatoes, it also is equally effective in the control of leaf chewing insects and blight on many other vegetables such as potatoes, cucumbers, beans and cabbage, also many flowers as roses, azalea, evergreens, asters, and hollyhock. 1 lb. Sifter carton, 35c. 1 lb. pump gun, 55c. 4 lb. 80c. 50 lb. \$9.00.

ACME KOPPER QUEEN (Mildew Spray) is a stainless liquid copper spray for the control of mildew, leaf spot, and black spot on rose bushes, flowers, and many other kinds of foliage. Leaves no unsightly residue. A liquid spray replacing Bordeaux Mixture and Sulphur. ½ pt., 35c. Pint, 60c. Quart, 90c. Gallon \$2.25.

ACME BORDEAUX MIXTURE prevents large losses caused by blight, rot, mildew, scab, anthracnose, etc. Stimulates plant growth, increasing the harvest. Almost every kind of vegetable, fruit, and shrub can be improved by Bordeaux spraying. 1 lb., 35c. 4 lbs., 75c.

ACME KOPPER KING spray or dust for control of tomato blight. Recommended for use wherever Bordeaux Mixture is used. Kopper King is a tri-basic copper sulphate—a modern development. 1 lb., 40c 4 lbs., \$1.09.

ACME WETTABLE DUSTING SULPHUR is an improved dusting sulphur for home use which can also be used as a liquid spray. Controls red spiders on evergreen, mildew, leaf spot, black spot, and rust on rose bushes, chrysanthemums, snapdragons, carnations, and certain other foliage. 98% passes through a 325 mesh screen. An excellent chigger chaser. 2 lb. sifter carton, 30c.

ACME ANT-KILL is most effective for control of all honey-dew loving ants. Syrup is sold with safety cup. Junior Set, 35c. Cottage Set, 65c. 2 oz. Bottle, 15c. Extra Cups, 10c.

ACME BAIT-M with METALDEHYDE is an attractive insect bait for plant protection. Contains metaldehyde for control of snails. 1 lb., 25c. 2½ lbs., 50c, 10 lbs., \$1.75.

ACME STOP—A sticky tree banding compound for use on trees, to prevent insects from crawling up to destroy foliage. 6 oz., 35c. 1 lb., 65c. 7½ lbs., \$4.00.

ACME KOPPER SHIELD—A pruning and tree wound paint. An antiseptic treatment to prevent fungi from penetrating the wounds. ½ pt., 30c. Pint, 45c. Quart, 75c.

ACME DAWG-GONE—Protect that evergreen—keep dogs away. Remove cap and hang tube (opening down) in the lower branches of trees. Tubes, 15c each.

ACME WEED KILLER destroys weeds and all vegetation. The kind to use on driveways, clay courts, paths, etc. Also widely used in spotting lawn weeds. Pint, 35c. Quart, 55c. Gallon, \$1.60.

Gay Colorful Poppies – Sweet Scented Stocks

Iceland Poppies

Iceland Poppy

SANFORD'S GIANTS—Undoubtedly one of the best Iceland Poppies. The flowers are immense and borne on long, stiff stems making them excellent for cutting. A beautiful range of colors. Pkt. 20c, 1/8 oz. 60c, 1/4 oz. \$1.00.

California Poppies

IMPROVED ORANGE — Very deep golden orange; large cup-shaped flowers. Height about 1 foot. Pkt. 10c, oz. 45c.

BRILLIANT MIXED—A mixture of orange, yellow, pink and white. Makes a beautiful display. Pkt. 10c, oz. 45c.

Rainbow Poppy

RAINBOW MIXTURE—A mixture of many varieties and brilliant shades including the desert types. Pkt. 10c, oz. 50c.

California Poppies

POPPIES

Probably no flower enjoys a greater popularity than the Poppy. They may be had in many varieties, heights, and brilliant or delicate colors. Seed should be sown in the open during the fall months in a location where the plants are to flower, as they do not transplant easily. Annual.

GLAUCIUM (TULIP FLOWERED)—Flowers vivid scarlet on tall strong stems. Pkt. 10c, 1/4 oz. 25c, 1/2 oz. 40c, oz. 75c.

SHIRLEY POPPY, SINGLE MIXED—Improved large flowering strain of many delicate shades. Pkt. 10c, 1/2 oz. 25c, oz. 40c.

SHIRLEY POPPY, DOUBLE MIXED—Beautiful begonia-like flowers. All colors. Height about 18 inches. Pkt. 10c, 1/4 oz. 25c, 1/2 oz. 40c, oz. 75c.

SHIRLEY POPPY, WHITE — Pure white, sheer and very lovely. Pkt. 10c, 1/2 oz. 40c, oz. 75c.

Double Giant Imperial Stocks

ON SOWING POPPY SEED

Poppies cannot be safely transplanted and should therefore be sown where they are to grow, and thinned to 8 or 10 inches apart. They are lovely, lively plants to sow over bulb beds or in spaces in the border left blank by other flowers that have finished blooming.

PORTULACA

(Moss Rose) A very showy low growing bedding plant about 6 inches high with fine foliage. Bears a profusion of cup-shaped flowers in brilliant colors of red, orange, yellow, rose, pink and white. Plant during the spring months in a sunny location.

DOUBLE FINEST MIXED — Flowers perfectly double. See color illustration page 25. Pkt. 20c, 1/8 oz. \$1.25, 1/4 oz. \$2.00.

SINGLE MIXED—Resembles a small wild rose. Pkt. 15c, 1/8 oz. 50c, 1/4 oz. 95c.

DOUBLE STOCKS

FRAGRANT STARRY FLOWERS FOR WINTER AND SPRING GARDENS

Sow seeds from September to February

GIANT DOUBLE IMPERIAL—This wonderful new strain of Stocks is branching in habit, very double florets in great profusion on long, strong stems. Sow seed in the fall in the open ground. Thin to 12 inches and remember the most delicate plants are usually the ones that produce the best double flowers. Annual. Height 18 inches to 2 feet.

BLOOD RED	ROSE PINK
CHAMOIS (Ivory)	WHITE
DARK BLUE	GOLDEN ROSE
LAVENDER	YELLOW

Each color: Pkt. 15c, 1/8 oz. 75c, 1/4 oz. \$1.25.

GIANT IMPERIAL MIXED—All colors mixed. Pkt. 10c, 1/8 oz. 60c, 1/4 oz. \$1.00.

PEAT MOSS

Peat moss is a valuable soil improver for all gardens. It consists chiefly of decomposed vegetable or organic matter and increases the humus content of the soil. It is spongy in nature and absorbs ten times its weight in water which it releases to the plants during periods of drought. Use Peat Moss liberally on flower and vegetable gardens and as a top dressing for lawns. Mulch roses, fruit trees and other shrubs to conserve moisture in the soil. A bale of Peat Moss when loosened will cover 700 square feet of soil.

Strawflowers for Dried Bouquets

Statice Sinuata

Strawflower

Tithonia, Fireball

STRAWFLOWERS (Everlasting)

Strawflowers (Everlasting Flowers) are hardy annuals, bearing beautiful straw-like flowers in various form and many colors. They may be used for fresh cut flowers, or to preserve, cut the first day they open and hang heads down until dry. We offer the most popular varieties:

GOMPHRENA or GLOBE AMARANTH—Sometimes known as Bachelor Button. Very attractive globe-shaped flowers resembling a clover blossom. Plant during the early spring months for summer and fall booms. Height, 2 feet. **Mixed colors. Pkt. 10c.**

HELICHRYSUM—Flowers hang like little bells on stems 2½ feet high. Plant during the fall and winter months. **Mixed colors. Pkt. 10c.**

STATICE SINUATA—Plants grow to a height of 1½ to 2 feet and throw large sprays of tiny flowers. Most popular for the garden and as cut flowers, both fresh and dried. Plant during the fall months. We have this in individual colors:

Blue—Yellow—Rose—Lavender—White

Each: Pkt. 10c, oz. 40c.

Mixed colors: Pkt. 10c, oz. 35c.

STATICE CASPIA—Smaller flowers than Sinuata, same habit. **LAVENDER** only. Plant during the fall months. **Pkt. 15c.**

Sunflower, Sungold

XERANTHEMUM—Attractive flowers resembling a small double sunflower. Height 2 to 3 feet. Color bright rose, purple and white. Very free flowering. Plant during the fall and winter months. **Pkt. 10c.**

MIXED STRAW FLOWERS—A mixture made up of the various varieties. **Pkt. 10c.**

SUNFLOWER (HELIANTHUS)

SUNGOLD—Massive bright golden yellow very double flowers on 3 to 4 foot stems. Good foliage, strong stems for cutting. Very striking and showy. See color illustration page 25. **Pkt. 10c, ½ oz. 35c, oz. 60c.**

DWARF RED SUNFLOWER—The plant is of a freely-branching habit with well-shaped dark-centered flowers of bright chestnut red, merging to a yellow at the tips of the petals. Height 6 feet. **Pkt. 10c, oz. 30c.**

SWEET WILLIAM

(*Dianthus Barbatus*) Vigorous free-flowering perennial. Individual florets grow in flat clusters on long stems. Plant large and compact. Colors are crimson, scarlet, pink and white with variations. Plant during the fall months. Height 1 to 1½ feet.

DOUBLE MIXED—Pkt. 10c.

SINGLE MIXED—Pkt. 10c.

.....

TITHONIA SPECIOSA (MEXICAN SUNFLOWER)

BRIGHT ORANGE—Immensely tall plants with large bright flowers resembling a large double sunflower. Center yellow crested. Plant during the spring months for late summer and fall blooming. Best planted along a fence or building as they grow 6 to 8 feet tall. **Pkt. 10c, ¼ oz. 50c.**

FIREBALL (Speciosa Grandiflora)—This new Tithonia is the same in growth and habit as the Bright Orange except the color is a fiery orange red and blooms somewhat later than the orange. See color illustration page 24. **Pkt. 25c, 5 pkts. \$1.00.**

ORNAMENTAL GOURDS

Easily grown in any good garden soil. Plant in the spring after danger from frost. Ornamental on the vine and when well dried and covered with shellac or painted in bright colors, gourds lend themselves to many useful and ornamental purposes. Gourds should remain on the vines until they drop easily, then allowed to cure for a couple of months before decorating.

SMALL VARIETIES MIXED—Many and varied shapes and colors.

LARGE VARIETIES MIXED—All popular large varieties.

LARGE AND SMALL VARIETIES MIXED—As above.

Each: Pkt. 10c, ½ oz. 30c, oz. 50c.

Ornamental Gourds

Verbenas for a Show of Color

Venidium Fastuosum

VENIDIUM

Flowers grow to 4 or 5 inches in diameter on tall stems standing well above the gray-green foliage. Daisy-like with overlapping petals. Center blue-black with a lighter shade ray. Plant in full sun during the fall and winter months. Height 2 feet.

VENIDIUM FASTUOSUM — Orange yellow. Very large and bright. Pkt. 20c, 1/8 oz. \$1.00.

VENIDIUM HYBRIDS—Mixed shades of apricot, white, salmon, yellow and orange. Pkt. 25c, 1/8 oz. \$1.00.

VINCA ROSEA

(Periwinkle) Ornamental bush-like plants with dark glossy foliage and handsome free-flowering blossoms in pink and white, like the floret of a very large single phlox. Plant seed in the early spring. Perennial. 16 to 18 inches tall. See color illustration page 24.

MIXED COLORS—Pkt. 15c, 1/4 oz. 50c.

VIRGINIAN STOCKS

Very attractive hardy annual, producing innumerable bright colored tiny flowers on thin stems and largely grown for beds and borders. Height 6 to 12 inches. Colors: Crimson, Lavender, Rose, Yellow, and White.

MIXED ONLY—Pkt. 10c, 1/2 oz. 50c.

Virginia Stocks

WILD FLOWER MIXTURE

A fine mixture of many species. They may be planted from early fall to early spring, a longer blooming period resulting from the fall planting. Annuals. Pkt. 10c, oz. \$1.00, 1/4 lb. \$3.00, lb. \$10.00.

VIOLA

Violas are very much like pansies, though the individual blooms are smaller. They are excellent for bedding, massing or borders as they bloom in great profusion over a long period. Thrive best in a light, rich soil in a semi-shady location. Plant during the fall months. Height 6 inches.

MIXED COLORS—Pkt. 15c.

WALLFLOWER

The velvety single flowers grow in loose clusters on long stems covered with long narrow leaves. The colors are in rich mellow tones of bronze, copper and golden buff. Plants are vigorous and grow to a height of 1 to 1 1/2 feet. Plant during the fall months. Thin to 1 foot.

GOLDEN GEM—Bright golden yellow. Pkt. 10c.

MIXED COLORS—Pkt. 10c.

Verbena Giant Hybrids

BEAUTIFUL VERBENAS Hybrid Giants

Verbenas grow low on the ground but have a spread of from 12 to 18 inches. The lovely individual florets grow in large clusters and the flowers may be used for cutting, or for very colorful beds and borders. Plant in the open during the fall, winter and spring months as they bloom practically all year round in California. Allow plenty of space between plants. Plant seed shallow in a finely made rich soil and keep moist but not wet until plants are up.

Giant Scarlet—Very large bright red.

Giant Beauty of Oxford Hybrid — Brilliant rose shades.

Giant Salmon Pink—Huge pink clusters.

Giant Violacea Stellata — Deep purple with white eye.

Giant Pure White—A gigantic pure white combining well with all colors.

HYBRIDA GIANTS MIXED—Contains all of the above colors and many others and blended for the proper color values. You will find the giant strains far superior to the old small flowered varieties.

All of the above: Pkt. 15c, 1/8 oz. 60c, 1/4 oz. \$1.00.

Dianthus, PINKS	10-12 inches	September-March	HA, sun; thin to 8 in.
CARNATIONS	12-18 inches	September-February	A, P, set 12 in., part shade.
Sweet William	1-2 feet	September-January	A, bien. Sun.
Didiscus, Blue Lace Flower	18 inches		A, sun.
Digitalis, Foxglove	3-4 feet	September-January	A, bien., part shade.
Dimorphotheca, African Daisy	12-18 inches	August-March	A, sun.
Dolichos, Australian Pea Vine and Hyacinth Bean		February-July	A, Vine.
Eschscholtzia, CALIFORNIA POPPY	1 foot	September-March	A. Sow where to grow.
Euphorbia, Snow on the Mountain and Poinsettia	2-3 feet	February-March	A, sun.
Gaillardia, Blanket Flower	1½-2 feet	Any time	A, P. Full sun. Showy.
Gerbera, Transvaal Daisy	2 feet	September-April	P, sun, good drainage.
Geum, Avens	2 feet	September-April	P, sun or partial shade.
Glaucium, Horned Poppy	2-3 feet	September-March	P, full sun, sow in open.
Godetia	1-1½ feet	September-January	A, semi-shade to sun.
Gomphrena, GLOBE AMARANTH	2 feet	September-April	A, sun. Everlasting.
Gypsophila, BABY'S BREATH	18-24 inches	September-February	A, sun.
Helianthus, Sunflower	4-6 feet	March-July	A, sun. Showy summer flowers.
Helichrysum, Strawflower	2½ feet	September-February	HA, sun. Everlasting.
Heliotropium, Heliotrope	1-2 feet	Early Spring	P, fragrant flowers.
Hunnemannia, Tulip Poppy	2 feet	September-October	P, sow where to grow.
Iberis, CANDYTUFT	1½ feet	September-February	A, sun, showy flowers.
Impatiens, BALSAM, Lady Slipper	2 feet	February-March	TA, semi-shade.
Ipomoea, MORNING GLORY, Cypress Vine		February-July	A, Vine, sow after frost.
Kochia, Burning Bush, Summer Cypress	1-2 feet	February-June	A, sun, colors up in summer.
Lagenaria, ORNAMENTAL GOURDS		March-July	A, vines. Showy fruits.
Lantana, Lantana	2-3 feet	February-July	P, comes back if frozen.
Lathyrus, SWEET PEA		September-February	A, see special culture.
Linaria, Baby Snapdragon	2 feet	September-February	A, sun.
Linum, Flax	1½-3 feet	September-March	A, P, sun.
Lobelia, Lobelia	4-6 inches	September-February	A, beautiful blue border.
Lupinus, Lupin	2-3 feet	September-January	A, thin to 12 inches.
Malcomia, VIRGINIAN STOCKS	6-12 inches	August-February	A, Bulb cover, showy.
Mathiola, Evening Scented Stock	6-8 inches	September-February	A, sun.
Giant Imperial STOCK	18-24 inches	September-February	A, thin to 12 inches.
Mesembryanthemum, Ice Plant	8 inches	Fall, Early Spring	A, P, full sun, poor soil.
Mirabilis, FOUR O'CLOCK	2 feet	February-March	P, sun.
Momordica, Balsam Apple		February-July	A, Vine.
Myosotis, Forget-Me-Not	1 foot	Early Spring	A, cool damp location.
Nemesia	1 foot	Early Spring	A, showy dwarf annual.
Nemophila, Baby Blue Eyes	6 inches	September-February	A, excellent bulb cover.
Nicotiana, Flowering Tobacco	3-4 feet	September-July	A, sun, fragrant.
Nierembergia, Blue Cup Flower	6 inches	September-February	P, sun.
Nigella	1 foot	September-February	HA, sun.
Papaver, POPPIES	15-24 inches	September-January	A, P. Sow where to grow.
Pelargonium, GERANIUMS	1-2 feet	September-April	P, sun or part shade.
Petunia, PETUNIA	3-30 inches	September-April	A, P. Thin to 8-12 in., sun.
Phlox	2 feet	August-January	A, sun, showy.
Portulaca, Moss Rose	6 inches	March-August	A, full sun, hot dry places.
Pyrethrum	2 feet	September-January	P, full sun.
Queen Anne's Lace	3 feet	September-February	A, sun.
Ranunculus	2 feet	September-February	Bulb, well drained soil, sun.
Reseda, MIGNONETTE	6-12 inches	September-February	A, shade or sun.
Rhodanthe, Swan River Everlasting	2½ feet	September-January	A, full sun. Everlasting.
Ricinus, CASTOR BEANS	6-8 feet	March-July	A, sun.
Salpiglossis, Painted Tongue	2½ feet	September-March	A, sun, careful watering.
Salvia, Scarlet Sage	1-2 feet	September-February	TP, sun, bedding.
Scabiosa, Pincushion Flower	2½ feet	September-February	A, sun.
Schizanthus, Butterfly Flower	1 foot	September-January	A, sun.
Statice, Sea Lavender	1½-2 feet	September-February	HA, sun; everlasting.
Tagetes, MARIGOLD, French, African	12-30 inches	March-August	A, sun, light soil; thin to 10-12 in.
Tithonia, Mexican Sunflower	6-8 feet	March-August	P, full sun.
Tropaeolum, NASTURTIUM	12-14 inches	March-Early September	A, dry poor soil; sun.
Venidium, Monarch of the Veldt	2 feet	September-March	A, full sun.
Verbena, VERBENA	1 foot	September-June	A, sun, blooms continuously.
Vinca, Periwinkle	16-18 inches	February-July	P, sun.
Viola, PANSY, VIOLA	6 inches	September-March	A, semi-shade, transplant 4-12 in.
Xeranthemum, Everlasting	2-3 feet	September-January	HA, everlasting, sun.
Zinnia, ZINNIA	6 inches-4 feet	March-August	A, thin to 12 in. Full sun.

A, annual; B, biennial; P, perennial, HA, hardy annual; HHA, half hardy annual.

SMITH'S GIANT SPENCER SWEET PEAS

HOW TO GROW SWEET PEAS

SWEET PEAS are so well known they need no description. We offer only the Giant Flowering Spencer strain in both the Early Flowering and the Spring Flowering types.

CULTURE: Sow seed in a location that receives morning and early afternoon sun. Seed may be planted from early fall to early spring. Dig a trench about a foot wide and deep and fill in with 6 inches of well-rotted manure. Mix a liberal amount of manure with the soil that has been removed and replace it. Flood bed thoroughly and allow to stand several days before planting seed. After the soil has settled sufficiently, open a trench in the bed about 6 inches deep and plant ONE OUNCE of seed to about 20 or 25 feet of row. During the warm weather cover seed about 2 or 3 inches deep and in cooler weather about 1 inch is sufficient. CARE MUST BE TAKEN DURING WARM WEATHER NOT TO ROT THE SEED WITH TOO MUCH MOISTURE. After planting seed soak the trench thoroughly and cover top with a light mulch of peat moss to prevent the surface soil from drying out and cracking. When the plants are up about 3 or 4 inches thin out to about 4 inches apart and begin drawing the earth to the plant to insure a deep root system. This makes a trench on each side of the plant along which the plant is watered. Provide a trellis or proper support as the vines attain great height. Frequent cultivation, water as needed after plants are up and occasional applications of Sweet Pea Food or a good all-purpose commercial fertilizer, will insure a profusion of lovely blooms. A long blooming season may be had by keeping the blossoms picked.

Inoculate Seed with LEGUME-AID

LEGUME-AID is a NITROGEN-fixing bacteria for inoculating legume seed, such as SWEET PEA SEED, LUPINS, etc. Legume-Aid increases the yield, improves the quality and enriches the soil. It comes in dust form in moisture-proof packages and no water is needed. One garden packet inoculates up to 5 pounds of Sweet Peas, Lupins, Beans or garden peas.

Pkt. 10c, postpaid.

CUPID SPENCER SWEET PEAS

Sweet peas in bush form. Lovely large blooms of true Spencer type, borne profusely on small trailing plants growing not more than 9 inches tall. Grand for borders and massing. Light shades, bright pink predominating. Pkt. 15c, 1/2 oz. 25c, 1 oz. 40c, 1/4 lb. \$1.25.

Spencer Sweet Peas

SPECIAL MIXTURE SPENCER SWEET PEAS

This is our special mixture and is a blend of all the most beautiful colors in Spencer Sweet Peas

Pkt. 10c, oz. 25c, 1/4 lb. 60c.

Giant Early Flowering Spencer Sweet Peas

This type of Sweet Pea deserves more attention from the home gardener. They come into bloom from three to four weeks earlier than the late varieties, and are well into flower before the dry summer weather begins. Where nights are cool they have an extra long blooming season. The flowers are equally as large as late Spencers, with long stems and are beautifully ruffled.

All colors: Pkt. 10c, oz. 35c.

SHIRLEY TEMPLE—The color is softer and more beautiful than Pinkie plus the beauty of fluted petals. The flowers are the largest of any pink sweet pea.

EXPOSITION PINK—Gorgeous rich pink rather resembling the color of the pink geranium.

LADDIE IMPROVED—Rich rose giant blooms on very long strong stems. This is a very fine sweet pea for outdoor culture.

LAVANDA—A pure clear lavender—so clear that full blown blossoms and partly opened buds are exactly the same shade.

HOPE—A black-seeded pure white.

BALL'S ROSE—Giant rich rose blooms on long, strong stems.

MAJESTIC ROSE—Rose-pink blooms on long stems.

MRS. HERBERT HOOVER—Beautiful, clear marine blue.

FLORIST BLUE—Best clear blue.

BALL'S ORANGE, IMPROVED—Clear, deep, glowing orange.

RED BIRD—The brightest and largest deep red. Long stems.

FINEST MIXTURE—A well-balanced mixture of selected shades. Pkt. 10c, oz. 40c.

Giant Spring Flowering Spencers

All colors: Pkt. 10c, oz. 35c.

PINK AND ROSE SHADES

PEGGY ANN—A late flowering variety of great beauty and distinction. A new and glowing shade of salmon pink. Most bewitching under artificial light. Delightfully perfumed. The stems are very long and stout with four huge blooms to a stem.

DAMASK ROSE—Bright rose carmine. One of the best in this class.

ASCOT—A beautiful clear, deep pink.

BEAUTY—Blush pink.

MAGNET—Delightful shade of cream pink.

LAVENDER AND BLUE SHADES

AMBITION—Rich deep lavender, with a darker shade on the base of the standard and wings when young, lessening as the bloom ages. Gold Medal and Award of Merit.

POWERSCOURT—A clear pure lavender. Has been considered the best lavender for a number of years. It is still the most popular. The flowers are very pure in color.

THE ADMIRAL—Largest and best navy blue. The color is richer and deeper than Fortune. Award of Merit, Scottish National Sweet Pea Trials. Award of Merit.

CHINESE BLUE—Chinese Blue is a solid, rich, deep blue without the objectionable fading out on the edges. The stems are long and bear four blooms throughout. Plants are strong and vigorous with a blooming season longer than that of the average sweet pea.

WHITE AND CREAM SHADES

SEXTET QUEEN—Pure white flowers of perfect form and of great substance. Normally produces five flowered stems when grown under ordinary conditions. Black seeded. Award of Merit.

GRAND NATIONAL—Rich cream. A charming tone and so far the nearest approach to a true yellow.

YOUTH—This sweet pea can be described as a white ground picotee but with slightly deeper color on the edges than its predecessor in this group. Strongly perfumed.

ORANGE AND SALMON SHADES

SMILES—Clear glistening salmon, best describes this exquisite variety. The large flowers are beautifully waved and fluted.

RED SHADES

RUBICUND—The very best crimson. It is a first class sweet pea for all purposes, especially for general garden culture.

WELCOME—By far the best and most brilliant, dazzling, scarlet sweet pea. For exhibition or gardens it is supreme. Absolutely sunproof. Silver Medal, Scottish National Sweet Pea Society.

MAROON AND PURPLE SHADES

WARRIOR—Rich chocolate maroon. A magnificent variety which has held its place and popularity for a number of years.

OLYMPIA—Deep rich purple of graceful form and immense size. Gold Medal, Scottish National Sweet Pea Trials.

Vines Are Essential to the Home Beautiful

Antigonon leptopus (Queen's Wreath)

FOR BEAUTIFUL BLOOMS AND FOLIAGE

ANTIGONON LEPTOPUS (Queen's Wreath)

Perennial. Grows from seed or bulbous roots. It is cut back by frost but renews its growth more luxuriantly each year. Bears lovely rose-pink wreath-like blossoms during the late summer and fall months.

SEED—Pkt. 10c.

BULBOUS ROOTS—(Spring months only.) Large size, 50c each, postpaid.

Other Vines Popular and Decorative

(All annual unless listed perennial.)

AUSTRALIAN PEA VINE—Small rose purple blossoms. Pkt. 15c.

BALLOON VINE—Bears a pretty inflated white and green capsule.

BALSAM APPLE—Yellow flowers, ornamental warted yellow fruit.

CYPRESS VINE—Star-shaped scarlet and white flowers. Fine foliage. Pkt. 35c.

CARDINAL CLIMBER—Bright red flowers. Attractive foliage. Pkt. 25c.

COBOEA SCANDENS (CUP AND SAUCER VINE)—Perennial. Flowers large, bell-shaped, deep purple in color.

HYACINTH BEAN (DOLICHOS)—Purple and white flowers followed by ornamental seed pods. Very popular. Fast growth.

JAPANESE HOP (HUMULUS)—Luxuriant foliage for dense rapid growth.

KUDZU VINE—Perennial. Quick growing. Large attractive leaves.

PASSION FLOWER—Nice foliage growth but few flowers in Arizona.

ASPARAGUS PLUMOSUS—Perennial. Fine feathery foliage, used extensively for green in cut flowers. Soak seed before planting.

WILD CUCUMBER—Small white fragrant flowers followed by ornamental seed pods.

All of the above: 10c per pkt. unless noted otherwise.

Morning Glory, Scarlett O'Hara

Vines Specially Selected for Their Adaptability to California Climate

Plant all vine seed and bulbous roots in the spring after all danger of frost, and continue to plant during the summer months. Provides restful shade and quick and attractive covering for fence, trellis, and bare walls. Vines planted for a profusion of blooms should be fertilized only lightly; for luxuriant foliage soil may be quite rich.

MORNING GLORIES

SCARLETT O'HARA—Beautiful rich dark wine color. Early blooms. Pkt. 20c, 1/8 oz. 50c.

CLARK'S HEAVENLY BLUE—Sky blue with golden throat. Early. Pkt. 15c, 1/4 oz. 40c.

FINEST TALL, MIXED—Shades of rose, blue and white. Pkt. 10c, oz. 25c.

IMPERIAL JAPANESE—Variety of colors beautifully shaded. Pkt. 10c, oz. 35c.

MADEIRA VINES

One of the best and most popular climbers for foliage effect. Increases very rapidly. Large tubers, 15c each, \$1.25 dozen; medium size, 10c each, \$1.00 dozen.

Available only during the spring and early summer months.

QUICK GROWING CLIMBERS AND SHADE VINES

MOON FLOWER

Annual. Large sweet scented. Bloom after sunset.

WHITE OR BLUE—Pkt. 10c, oz. 60c.

When to Plant Vegetable Seeds

Vegetable	To 1000 ft. Elevation	1000-3000 ft. Elevation	3000-4500 ft. Elevation	4500-6000 ft. Elevation*
Asparagus.....	Oct. 1-Feb. 1	Oct. 1-Feb. 1	Feb.-March	April 1-15

California Irrigated Pastures

About 1924 Ladino Clover was introduced into California for commercial planting. It was found that this legume would thrive under the hot weather conditions of the California valleys if provided with an abundance of irrigation water. But its greatest promise of economic value was that it thrived on shallow soils which would not support other legumes. This adaptability to hot weather and poor soils initiated the development of irrigated pastures in the state that has rapidly expanded to well over 300,000 acres today and will be further expanded within the next few years.

The initial plantings were of straight Ladino but soon it was found that a better balance of feed was essential and various grasses were introduced in mixtures. On page 41 is a table of pasture mixtures recommended by farm advisers for the various counties of California. These are general purpose mixtures and are applicable to probably 80 per cent of the plantings to be made. It will be noted that only four counties do not recommend Ladino as a basic legume for pasture planting. In these four counties Alfalfa is preferred by three and Alsike clover by one. All but six recommend Rye Grass and eight failed to name Orchard Grass. Alfalfa ranks fourth and Dallis Grass fifth. Generally speaking a mixture containing seeds of these five grasses in the proportions recommended constitute a standard mixture for planting under ordinary soil, climatic and moisture conditions in California valleys. Special mixtures are recommended for Alkaline soils, sandy soils or for horse pastures. On Alkaline soils three pounds of Strawberry clover per acre is the recommended legume with five pounds Rhodes Grass, four pounds Dallis Grass and five pounds Yellow Blossom Sweet Clover as added components. On sandy soils four pounds Alfalfa per acre with three pounds Orchard and four pounds Domestic Rye Grass is the favored mixture.

The three main objectives of a pasture operator should be: the maintenance of an adequate balance of legumes and grasses through as much of the pasture season as possible, maintenance of highest possible carrying capacity, and utilization of feeds at their highest possible nutritive value. Proper use of irrigation water and proper management of livestock contribute most to these objectives.

The grasses in the recommended mixtures have a preferred season for growth and ripening. Domestic Rye Grass is the earliest and tends to become semi-dormant in mid-season; Perennial Rye Grass is somewhat later while Orchard, Dallis and Tall or Meadow Fescue are mid-season grasses. Alfalfa is added in hotter sections to provide legume pasturage when Ladino is inclined to sag under the hot weather conditions. Thus in a mixture of proper proportions a succession of grasses is obtained for proper balance of ration.

Grazing of pastures should be deferred after irrigations until such time as the soil has dried to a point where plants will not be injured by trampling. Efforts should be made to rotate grazing livestock so that grasses will be grazed at a time when most palatable. This time, generally speaking, is lush growth just as the plants reach flowering stage. If grasses are allowed to advance to a seed stage, they are avoided by stock and thus the balance of grasses in a mixture is endangered. If the pasture operator does not have sufficient stock to keep the grasses grazed properly, the pasture should be clipped.

Bloating of cattle and sheep in Ladino pastures is an ever present hazard. This may be partly avoided by proper balance of grasses and legumes in the pasture. In Australia where pasturage has been closely studied for many years, 40 to 50 per cent legumes has been found to meet the grazing preferences of these animals with a minimum of hazard.

No pasture planting will be successful unless good seed is used. The planter should be careful that seed is of good quality with high purity and germination and free of noxious weeds. We insist at all times that the seed we offer is of the highest standard. We will be glad to furnish information on the seeds we stock and to advise you on other questions not covered in this catalog.

The College of Agriculture at Davis, cooperating with the extension service, has contributed greatly to the development of irrigated pastures in California and Professors Burle E. Jones and J. B. Brown have issued an excellent circular, No. 125, which will be found invaluable to prospective planters.

PASTURE GRASSES, CLOVER

GRASSES

BROMUS INERMIS

(AWNLESS BROME GRASS)

The best grass we have for the drier regions of Northern California. Grows luxuriantly, is freely eaten dry or green by cattle. Sow 25 to 30 pounds per acre. Spring or fall.

REED CANARY GRASS

Excellent for wet and marshy land. May be seeded alone or in mixtures where irrigation is heavy.

TALL FESCUE

A very palatable grass, it is related closely to Meadow Fescue. Hardy perennial, adapted to pasture mixtures, especially on wet soils. Sow 25 pounds to the acre.

MEADOW FESCUE

This is a very valuable species for permanent grass lands and is relished by livestock both as hay and pasture. Sow 15 to 20 pounds per acre on well prepared soil.

MESQUITE

Used on burned over, virgin soils. No cultivation necessary. Sow seed at the rate of 15 pounds per acre.

OAT GRASS, TALL MEADOW

The earliest grass to start in the spring and holds well into the fall. Withstands rather dry, warm and cold conditions much better than many other grasses. A long-lived, deep rooted perennial. Grows equally well on bottom or upland. For pasture sow 20 to 30 pounds per acre.

ORCHARD GRASS or COCKSFOOT

Valuable if planted alone or mixed with other grasses. Very often mixed with Ladino clover, red clover and rye grass. Seed should be broadcast at the rate of 20 to 28 pounds per acre on well prepared soil.

PERENNIAL RYE GRASS

A strong growing, hardy perennial grass, noted for its nutritive qualities. It is equally valuable for both grazing and hay. For pasture sow 25 to 30 pounds per acre.

WESTERN RYE GRASS

A quick growing grass, attaining a height of 2½ to 4 feet, desirable for temporary meadows or pastures. Thrives best on soils that are slightly moist and will even stand considerable overflow. Grows easily and produces an abundance of excellent forage either as hay or pasture. Sow 25 pounds per acre.

TIMOTHY

This is a very valuable grass for hay. Thrives best on moist, loamy soil. Sow early in the spring or fall at the rate of 8 to 10 pounds per acre.

DALLIS GRASS

(PASPALUM DILATATUM)

This strong rooted perennial grass is adapted to poor as well as good soils and is quite resistant to drought, reviving quickly when moisture becomes available. Grows in clumps or bunches 2 to 3 feet high, is deep rooted and supplies an abundance of nutritious green feed throughout the year if kept well irrigated. Sow 8 to 10 pounds of seed per acre.

SUDAN GRASS

An annual of the Sorghum family. Produces more forage per acre than any other annual crop. Sudan may be used as a hay crop but its principal use is for a quick summer forage in the warmer sections and where irrigation is available. Under good conditions this crop will grow 5 to 10 feet high and produce an abundance of green feed during the summer months.

RED TOP

A valuable grass for moist soils. It is a good, permanent grass. It should be grazed close. It has been grown successfully on "alkali" bottom lands, where other grasses failed. We offer only the clean seed. Sow 10 to 15 pounds of clean seed to the acre.

KENTUCKY BLUE GRASS

This is an excellent grass for pasture for all kinds of stock. It is very hardy. The roots form a tough sod. Blue Grass requires two years to get well started and for that reason is often sown in mixture with other grasses. From 20 to 25 pounds to the acre.

Crested Wheat Grass

CRESTED WHEAT GRASS

This is a valuable plant for our Western country and thrives well in semi-arid sections. It is one of the best and surest hay grasses for these sections. It produces good crops of hay and makes excellent permanent pasture. It withstands drought and the cold winters. 10 to 15 pounds of seed is usually sown to the acre.

CLOVER

LADINO CLOVER

This giant variety of White Dutch clover has been extensively planted in California during the last few years. Its luxuriant growth and adaptability to the poorer types of heavy lands makes this the most useful crop that has been introduced in California in many years. Grown by itself or in combination with other grasses it provides abundant pasturage for milk cows, stock and poultry. The plant is a perennial, making a growth of 8 to 15 inches. Can be grown successfully on a wide range of soils but has been found especially valuable on heavy adobe and shallow soils of the interior valleys. Pastures should be irrigated every ten days during the growing season. Ladino may be seeded in the spring or fall and 4 to 6 pounds of seed per acre is required. We can supply California grown seed or Certified Oregon seed.

Ladino Clover

Sudan Grass

SMITH'S FIELD AND FORAGE CROP SEEDS

ALFALFA

CHILEAN (Common)

This variety is more widely used than any other in California. It is thrifty, long lived and produces a heavy crop of fine stemmed leafy hay.

HAIRY PERUVIAN

This alfalfa makes a somewhat coarser hay than Chilean, is not as long lived but will produce more hay the first year. It is better adapted to lands with a high water table than Chilean.

FIELD CORN

Field corn is planted in California for use as silage to a greater extent than for a grain crop. However, some excellent yields of grain are made especially among the flint varieties of corn. Plant 8 to 10 pounds for grain and 12 to 15 pounds of seed for silage per acre.

KING PHILLIP HYBRID

A 90-day, hard yellow flint corn used mainly as a grain crop. A good yielder and perhaps the best California variety.

MINNESOTA 13

A yellow dent variety. Medium size stalks, ears 9 to 11 inches long. Its early maturing habits make this the most popular type of field corn in sections with short summer seasons.

REID'S YELLOW DENT

A large-eared 110-day corn used extensively for silage and seed.

HICKORY KING

A productive, white dent variety maturing in 110 days. Large grain with a very small cob. One of the best silage types.

WISCONSIN WHITE DENT

A medium stalked, large-eared variety maturing in 110 days. Suitable for silage or seed production.

A Good Stand of Alfalfa

MELILOTUS INDICA

(Sour Clover)

An annual legume used exclusively as a cover crop. Has a high fertilizing value since the roots support tremendous nitrifying bacteria colonies. Sow broadcast at the rate of 25 pounds per acre.

BIRDSFOOT TREFOIL

Many pastures in California are being planted to this legume which has been imported from Europe. It is a deep rooting perennial widely adaptable to the interior valleys and the marshy areas of the coast.

BURR CLOVER

An annual legume which is native to California. Produces an abundance of winter foliage. Is useful in pasture mixtures and for planting foothill ranges, and makes an excellent orchard cover crop.

WHITE DUTCH CLOVER

A very hardy creeping clover, which adapts itself to a great variety of soils and climates, being found in every state in the Union. Superior for pasture either for sheep or cattle. As a bee pasture it is unexcelled. Sow 6 to 8 pounds per acre.

YELLOW SWEET CLOVER

Biennial. In great demand on account of its earliness, being about two weeks earlier than the white. Does not grow as tall as white, finer stemmed, and makes just as good pasture. Produces high quality hay. Sow 12 to 15 pounds per acre.

WHITE SWEET or BOKHARA CLOVER

Biennial. Excellent for pasture, hay and a soil improver. More drouth-resistant than alfalfa. It will generally produce a large crop of seed and hay the second year. Thrives on light alkali soil. Sow 12 to 15 pounds per acre.

RED CLOVER

Is excellent for pasture and hay purposes and is used very extensively throughout the country. Will thrive in slightly wetter and more acid land than alfalfa. Sow 6 to 10 pounds per acre.

ALSIKE

Very hardy, adapted for sowing on cold, wet land. Planted at the rate of 8 to 10 pounds per acre, it yields a large amount of hay or pasture and is a good bee plant. Write for quantity prices.

STRAWBERRY CLOVER

Undoubtedly one of the most satisfactory of recently developed legumes. Resembles White Dutch Clover but spreads faster and lives longer. The vigorous surface creepers develop a very dense sod. Primarily valuable for pasturing either cattle or sheep. Very adaptable to distinctly alkali soil; exceptionally satisfactory for coastal lands. However, it is of little value in extreme dry conditions. Free from insect and disease attacks. When seeding, 6 pounds per acre is ample; if in a mixture, 1½ pounds is recommended.

WRITE FOR PRICES

Field Corn, King Phillip Hybrid

GRAIN SORGHUMS

DWARF RED MILO

This type of Milo is planted on the smaller acreages where hand-cutting is necessary. It grows to a height of 4 to 5 feet. Produces 3 to 4 thousand pounds grain per acre. Plant 3 to 6 pounds of seed per acre.

DOUBLE DWARF RED MILO

This variety was developed for large scale production in California. Growing to a uniform height of 2 to 3 feet, it can be harvested with the ordinary combined harvester. It is a heavy producer and under good conditions will yield two or three tons of grain per acre.

DWARF EGYPTIAN CORN

This white grained sorghum is a shorter season crop than the Red Milo. Suitable for late plantings or under conditions of limited moisture. This dwarf type may be harvested with a combined harvester.

FORAGE SORGHUMS

EARLY AMBER

A very nutritive forage sorghum, usually fed green. May be cut three or four times a season. Broadcast 30 or 40 pounds of seed per acre.

HONEY SORGHUM

Requires a longer growing season but is a heavier yielder than Amber. May be used as a forage crop or will produce up to 25 tons of silage per acre. Sow 10 to 15 pounds of seed in drills or broadcast 40 pounds per acre.

SUNFLOWER

MAMMOTH RUSSIAN

Heavy producer of forage and seed. Of value for silage and seed production. Plant 10 pounds per acre.

FIELD PEAS

AUSTRIAN WINTER PEAS

Here is the ideal forage legume for hay ensilage or for pasture. Austrian Winter Peas under many conditions will outyield vetches. The vines and pods are almost as large and heavy as garden peas. The vines are relished by all kinds of stock. Plant in the fall for best results. Will not winter kill. Does well under irrigation, and in relatively humid sections. Very hardy. Grown extensively for seed and cover crop. Sow 75 to 90 pounds per acre when seeded alone; when seeded in companionship with a winter grain 60 to 75 pounds per acre.

CANADIAN

This legume has the distinct advantage of being suitable to late planting. Canadian Field Peas produce excellent forage. May be used for summer green manure crop. Requires considerable moisture. Sow 120 to 150 pounds per acre.

VETCH

SOW 40 TO 60 POUNDS PER ACRE

COMMON VETCH

Valuable for forage and green manure. As a hay crop it is generally sown with oats or wheat to afford support for the vines. Usually sown in the fall.

HAIRY VETCH

Thrives on all soils. Makes a better growth during the cold season than the other varieties. Has a very wide adaptability.

HUNGARIAN

Finer stemmed and leafier than most forage vetches. Suitable to various types of soils. Resistant to aphid attacks.

PURPLE VETCH

Adapted to the same soil conditions as Common Vetch. Makes a better growth during the cold winter months. An excellent variety for orchard cover crops or as a hay crop in combination with oats.

WILLAMETTE VETCH

An improved variety of the Common Vetch, well adapted to interior valley conditions in California. The winter hardiness and adaptability to many types of soil make this the best Vetch for either cover crops or hay production.

RAPE

DWARF ESSEX

This crop is very highly recommended for pasture for sheep, cattle and hogs. It also makes splendid green feed for poultry. Plant 10 pounds per acre, in early spring. Develops rapidly and is often ready to pasture in 6 to 8 weeks after seeding. Requires fertile, moist soil.

RYE

SOW 85 TO 115 POUNDS PER ACRE.

SPRING RYE

Makes a successful growth in rather poor soils where other grains would fail. It is useful as a cleaning crop for the purpose of eradicating wild oats. Makes early pasture and may be cut and cured for hay.

WINTER or FALL RYE

Serves a very useful purpose for pasture and hay. May be sown in the spring and summer as well as in the fall. When Winter Rye is sown in the spring, it goes into the following season before maturing.

SOYBEANS

Soybeans are annual legumes, widely adapted to various soils and not difficult to grow on the warmer more fertile soils. Are excellent as a summer catch crop and splendid soil builders. Soybean hay is one of the best roughages and when mixed with corn they make splendid ensilage. When harvested for seed, they should not be cut until pods are fully matured and the beans hard.

MILLETS

JAPANESE BARNYARD MILLET

This millet is exceedingly palatable and is the best of summer green feeds for the cool coast sections. Sow 20 to 30 pounds per acre.

GERMAN or GOLDEN

Will grow on any good land and yields heavily when irrigated. Yields from 30 to 40 bushels of seed per acre, and is excellent food for stock and poultry. Also a good green fodder and hay plant.

HOG or PRESO

The seed is large. Feeding value almost equal to corn. The name "hog millet" is used to emphasize the use for which it is intended. It is a valuable feed for hogs and cattle as well as for birds and poultry. Both German and hog millet are often used as catch crops where other crops fail in irrigated or humid sections.

Austrian Winter Field Peas

Smith's Vegetable and Berry Plants

Write for Quantity Prices — We Do Not Ship C. O. D.

STRAWBERRIES

In the warmer sections of California strawberries are usually planted on raised beds similar to lettuce beds. Alternate plants on each side of the bed about 12 inches apart. Water immediately after planting. Irrigating during the winter depends entirely on weather conditions. During the summer months plants must be watered not less than every three days. Under no conditions should plants be cultivated during the summer months as the plants are very shallow rooted. Allow weeds to grow around the plant during the summer months to provide shade. In the fall months the plants may be cultivated and fertilized. Also fertilize during the bearing season. Strawberries may be planted from the fall months on through to late spring.

ROCK HILL—This variety does well in hot sections. It is a vigorous grower, very prolific and yields over a long period. A medium size berry of good flavor and is an excellent shipper. **Dozen \$2.00, postpaid.**

OREGON PLUM—Mammoth sized berries round in shape, medium dark red in color. An early producer bearing both fall and spring. **Dozen \$1.00, postpaid.**

BLACKBERRIES

TEXAS WONDER BERRY—A large fruited luscious berry of rich dark color. It is one of the earliest varieties and very productive. **Each 30c, 3 for 75c, doz. \$2.50, postpaid.**

BOYSENBERRY

This new berry is twice as large as the Youngberry but of the same appearance. The Boysenberry is practically seedless and the flavor is unexcelled. Set the plants 5 to 6 feet apart in rows 8 feet apart for commercial use. In the home garden, they may be set closer together in rows. **Strong transplanted roots: Each 30c, 3 for 85c, 12 for \$3.00, postpaid.**

LOGANBERRIES

Supposed to be a hybrid between the blackberry and raspberry, but it is entirely distinct from either of its parents. When fully ripe it is a very dark red, very large, often an inch and a quarter long. **Each 30c, 3 for 75c, 12 for \$2.50, postpaid.**

YOUNGBERRY

This well-known berry is a cross between the loganberry and the dewberry. It has the pleasant flavor of the red raspberry, the juiciness of the loganberry and the jelling and canning qualities of the blackberry. **Each 30c, 3 for 75c, doz. \$2.50, postpaid.**

Smith's Vegetable Plants and Roots

All plants shipped at customer's risk. We cannot secure plants after dates specified.

Wherever possible all vegetable plants will be furnished from transplanted flats and packed with soil to assure safe delivery.

ASPARAGUS

Asparagus is very easily grown. For the small garden set plants 12 inches apart in rows 3 to 4 feet apart. Set the plants 8 to 10 inches deep in well fertilized trenches. After frost in the fall cut the dead tops and mulch the surface.

MARY WASHINGTON—A variety that has come to the front, grows very large and is very rust resistant. **75c per doz., 100 for \$3.50, postpaid.**

PEPPER PLANTS

(TRANSPLANTED)

FLORAL GEM, CALIFORNIA WONDER, ANAHEIM CHILI—From about March until June 1st. **Per doz. \$1.00, postpaid.**

CABBAGE and CAULIFLOWER

Plants quoted on request. State quantity.

EGG PLANTS

(TRANSPLANTED)

NEW YORK ROUND PURPLE and BLACK BEAUTY—From about March 1 until May 15. **Per doz. \$1.00, postpaid.**

RHUBARB

GIANT CHERRY—Stalks of large size and excellent flavor. One of the prime favorites in rhubarb. Large divisions. **35c each, 3 for \$1.00, \$3.50 doz., postpaid.**

SWEET POTATO PLANTS

We can furnish plants from April 1 to July 1. **Per doz. 50c, \$2.00 per 100, postpaid.** Write for quantity prices.

TOMATO PLANTS

(TRANSPLANTED)

EARLIANA, VICTOR, BEEFSTEAK, MARGLOBE, NORTON STONE, and DWARF STONE—Ready about March 1 until May 15. **Per doz. 75c, postpaid.**

Asparagus, Mary Washington

PLEASE READ BEFORE ORDERING

Owing to the expense of packing plants we do not ship orders for less than \$1.00. When we ship plants by mail or express we do so at the buyer's risk, and we do not ship plants C. O. D. Prices quoted in dozen and 100 lots are postpaid.

WRITE FOR QUANTITY PRICES

Smith's LAWN GRASS SEED

Success in Lawn Making Requires First of All

GOOD SEED

Smith's Lawn Seeds are thoroughly cleaned and are tested for purity and germination.

DIRECTIONS FOR PLANTING

Spade the ground as deep as possible and turn several times to see that it is thoroughly pulverized. Work in a good commercial fertilizer. Sheep guano or peat moss will add humus and improve the seed bed. Rake level and water thoroughly so the ground will settle. The seed bed should be allowed to stand for about two weeks, watering from time to time so the weed seeds will sprout.

Roll the ground before seeding, to prevent it from settling unevenly, and then rake the surface lightly. Sow the seed so as to cover the ground thoroughly, and then cover it lightly with soil. Roll again so as to press the seed in firmly. If you have no roller, use boards and tramp on them so as to pack the ground firmly, but a roller is preferred.

Grass seed will germinate in from 8 to 15 days, according to the weather. If a lawn is made during the summer, the ground should be covered lightly with peat after the seed has been rolled, so as to retain the moisture. New lawns should not be allowed to dry out, not even for a half day. For the first 15 days the lawn should be watered twice a day if necessary. A lawn should be fertilized after the first cutting, and at least twice a year. Water well after applying.

WE SPECIALIZE IN LAWN MIXTURES

Lawn seed for sunny or shady spots; grass for landscaping, golf courses or service. We are able to supply many varieties to meet conditions of soil, climate or use. Only the very best grades of grass seeds are used to make up our mixtures and we also make up any mixture that a customer has in mind! In the central valleys it is generally conceded that Kentucky Blue Grass is about as fine a lawn grass seed to plant as any and better than most. Many different mixes may be had with this seed as a base, getting excellent results, and producing a fine lawn of dark green color which builds up into a soft mat after a time. The recommended planting should be at the rate of one pound to 200 square feet of soil, or a plot measuring 10 feet by 20 feet.

Inquire for Prices on Lawn Seeds Listed Below

BENT ASTORIA

This strain of Bent differs from the Seaside variety in that it does not send out stolons, but that it spreads underground, sending up many root-stalks that produce a splendid turf. The growth is upright, of fine texture and is a richer green than Seaside Bent. It is more practical for lawns and succeeds best in heavy soils. Sow 1 pound to 200 square feet.

BENT SEASIDE

This is the true creeping bent. The plant is dwarf and it multiplies rapidly by sending out runners in all directions; from these, new plants are produced, and these in turn grow more runners. The turf becomes matted, and if damaged it heals over promptly. Sow 1 pound to 200 square feet.

KENTUCKY BLUE GRASS

Makes an excellent lawn of a dark green color. It forms a fine mat, with care and water makes one of the best lawns. Sow 1 pound to 200 square feet.

BERMUDA GRASS (Fancy)

Grows best during summer months, lies dormant in the winter; particularly well adapted to athletic fields such as polo, football, and baseball areas, also highly regarded in soil erosion prevention. Plant 1 pound to 200 square feet from May to September.

CHEWINGS FESCUE

Used extensively on putting greens, fairways and tees on golf courses, and does well on any kind of soil. It also produces a stiff, upright plant. Sow 1 pound to 150 square feet.

COMMON RYE GRASS (Annual)

A rapid growing grass where quick results are required. It is coarser than Kentucky Blue Grass and thrives in poor soil. It is used as a "nurse" crop in mixture to keep the lawn green while the better, slow-growing varieties are becoming established. Sow 1 pound to 150 square feet.

PERENNIAL RYE GRASS

Fast strong grower somewhat coarse bladed, not particular as to soil; will form turf under favorable conditions in 16 to 18 days; must be cut regularly, during growing season approximately once a week.

RED TOP GRASS

A fine-bladed grass that succeeds on almost any soil, although it does best under moist conditions. It is used in almost all lawn mixtures. Should not be planted by itself unless specifically recommended. Sow 1 pound to 200 square feet.

MEADOW FESCUE

A dwarf growing variety, produces a little heavier blade than Blue Grass or Chewings Fescue; very deep rooted; seed bed should be prepared to a depth of at least 10 inches. Excellent lawn grass if properly taken care of. Blend with clover or Red Top; plant 1 pound to 200 square feet.

WHITE DUTCH CLOVER

The most popular lawn clover in the world; usually planted with grasses such as Blue Grass, Chewings Fescue, Meadow Fescue, Red Top, or Poa Trivialis. Not often used with the rye grasses. Plant 1 pound to 200 square feet.

SHADY LAWN GRASS

This grass is especially adapted for growing in very shady places or near buildings where other grasses will not grow. If you have a shady, barren place, try our Shady Lawn Mixture. Sow 1 pound to 200 square feet.

Smith's Monthly Planting Guide

FOR THE SACRAMENTO VALLEY AND SIMILAR CLIMATES

For the colder sections of California, the time of planting should be determined by the weather conditions. In Northern California and in the higher altitudes, most of the varieties listed here should be planted in the spring, after all danger of frost.

All seeds listed herein are particularly adapted to any section of the United States as well as California, if planted during the proper planting season. You can make your purchases with full confidence.

February Planting List

FLOWER SEEDS: Alyssum, African Daisy, Ageratum, Anemone, Anagallis, Asparagus Fern, Asters, Bachelor Button, Balsam, Browallia, Calendula, Carnation, Candytuft, Calliopsis, Centaurea, Chrysanthemum, Coreopsis, Cactus, Columbine, Cosmos, Clarkia, Canna, Dahlia, Euphorbia, Evening Primrose, Four o'Clock, Gaillardia, Gypsophila, Gerbera, Geum, Geranium, Gourds (protected), Hollyhock, Helichrysum, Kochia, Lantana, Larkspur, Linaria, Lobelia, Linum, Moon Vine, Morning Glory, Mignonette, Nierembergia, Nicotiana, Nemophila, Nigella, Nasturtium (protected), Pansy, Petunia, Pinks, Painted Daisy, Queen Anne's Lace, Ranunculus, Scabiosa, Salpiglossis, Scarlet Flax, Shasta Daisy, Statice, Snapdragon, Salvia, Stocks, Sweet Peas, Sweet Sultan, Straw Flowers, Virginian Stocks, Verbena, Venidium, Vinca, Vine Seeds, Wallflower, Wild Flowers.

FLOWER PLANTS: All seasonable varieties.
BULBS: Amaryllis, Anemone, Agapanthus, Caladium, Canna, Calla Lily, Chinese Lily, Gladiolus, Hardy Lilies, Madeira Vine, Ornithogalum (Star of Bethlehem), Paper White Narcissus, Queen's Wreath, Ranunculus, Tuberose.

VEGETABLE SEEDS: Artichokes, Asparagus, Beets, Carrots, Collards, Cress, Chives, Endive, Herbs, Kale, Kohlrabi, Lettuce, Mustard, Okra, Onion, Parsley, Parsnips, Peas, Peppers in Hotbeds, Rutabaga, Radish, Salsify, Swiss Chard, Spinach, Squash, Tomato, Turnips.

PLANT UNDER COVER FOR EARLY CROPS: Cucumber, Cantaloupe, Egg Plant, Pepper, Squash, Tomato, Watermelon. (We are headquarters for HOTKAPS and flat cover papers.)

VEGETABLE PLANTS, ROOT AND TUBERS: Artichoke, Egg Plant, Peppers, Tomatoes (in the warmest sections), Asparagus Roots, Irish Potatoes, Onion Sets, Rhubarb Roots, Strawberry Plants, Sweet Potato Tubers in beds.

LAWN SEEDS: Bermuda Grass, Blue Grass, Rye Grass, Poa Trivialis, Red Top, White Dutch Clover.

FIELD SEEDS: Alfalfa, Barley, Oats, Sweet Clover, Wheat, Field and Pasture Grasses.

March Planting List

FLOWER SEEDS: Alyssum, African Daisy, Amaranthus, Asparagus Fern, Balsam, Chrysanthemum, Cockscomb, Cactus, Castor Bean, Canna, Cosmos, Dahlia, Euphorbia, Four o'Clocks, Gerbera, Geum, Gaillardia, Gomphrena, Geranium, Gourds, Helichrysum, Hollyhock, Kochia, Larkspur, Lantana, Linum, Marigolds, Morning Glory, Nasturtium, Nicotiana, Petunia, Portulaca, Pinks, Pansy, Salpiglossis, Scarlet Flax, Shasta Daisy, Straw Flowers, Sun Flower, Venidium, Vinca, Verbena, Tithonia, Wallflower, Wild Flowers, Woolflower, Zinnias, all Vine Seeds.

FLOWER PLANTS: All seasonable varieties.
BULBS AND ROOTS: Amaryllis, Agapanthus, Canna, Caladium, Calla Lily, Gerbera, Gladiolus, Madeira Vine, Narcissus, Queen's Wreath Vine, Tuberose.

VEGETABLE SEEDS: Asparagus, Artichoke, Beans, Beets, Carrots, Collard, Corn, Cress, Cucumber, Egg Plant, Endive, Herbs, Kale, Kohlrabi, Leek, Lettuce, Melons, Mustard, Okra, Peas, Peppers, Parsley, Pumpkin, Radish, Salsify, Swiss Chard, Spinach, Squash, Tomato, Turnip.

VEGETABLE PLANTS, ROOTS AND TUBERS: Artichoke, Asparagus Roots, Egg Plant, Onion Sets, Peppers, Tomato, Rhubarb Roots, Strawberry Plants, Irish Potatoes, Sweet Potato Tubers in beds.

LAWN SEEDS: Bermuda Grass, Blue Grass, Rye Grass, Poa Trivialis, White Dutch Clover.

FIELD SEEDS: Alfalfa, Field and Pasture Grasses, Sweet Clover, Barley and Oats for quick pasture.

April Planting List

FLOWER SEEDS: Amaranthus, Asparagus Fern, Castor Bean, Cactus, Cosmos, Cockscomb (Celosia), Gourds, Gaillardia, Gomphrena, Gerbera, Geum, Geranium, Hollyhocks, Helichrysum, Kochia, Lantana, Morning Glory, Marigolds, Nasturtium, Nicotiana, Petunia, Portulaca, Shasta Daisy, Sun Flower, Tithonia, Vine Seeds, Vinca, Verbena, Woolflower, Zinnia.

FLOWER PLANTS: In season.

BULBS AND ROOTS: Agapanthus, Canna, Caladium, Gerbera, Madeira Vine, Tuberose, Queen's Wreath Vine.

VEGETABLE SEEDS: Asparagus, Beans, Beets, Celery, Corn, Cucumber, Egg Plant, Endive, Herbs, Kale, Kohlrabi, Leaf Lettuce, Leek, Melons, Okra, Peppers, Peanuts, Pumpkin, Radish, Squash, Swiss Chard, Tomato.

VEGETABLE PLANTS, ROOTS AND TUBERS: Artichoke, Asparagus Roots, Egg Plant, Onion Sets, Irish Potatoes (in higher altitudes), Sweet Potato Plants, Peppers, Rhubarb Roots, Strawberry Plants, Tomatoes.

LAWN SEED: Bermuda Grass Seed.

FIELD SEEDS: Corn, Cowpeas, Millet, Milo Maize, Hegari, Sorghums, Sudan Grass, Bermuda Grass, Sesbania, Field and Pasture Grasses (in higher altitudes).

May and June Planting List

FLOWER SEEDS: Amaranthus, Asparagus Fern, Celosias (Cockscomb), Cactus, Castor Bean, Cosmos, Gourds, Gaillardia, Kochia, Lantana, Morning Glory, Marigolds, Nasturtium, Nicotiana, Portulaca, Shasta Daisy, Sunflower, Tithonia, Vine Seeds, Vinca, Verbena, Zinnia.

FLOWER PLANTS: In season.

BULBS AND ROOTS: In season—Canna, Caladium, Madeira Vine, Tuberose, Queen's Wreath Vine.

VEGETABLE SEEDS: Asparagus, Beets, Beans, Celery, Corn, Kale, Melons, Swiss Chard, Peanuts, Peppers, Pumpkins, Squash, Tomato.

VEGETABLE PLANTS AND ROOTS: Asparagus Roots, Artichoke, Egg Plant, Peppers, Sweet Potato Plants, Tomato.

LAWN SEED: Bermuda Grass Seed.

FIELD SEEDS: Cowpeas, Millet, Milo Maize, Hegari, Sorghums, Sudan Grass, Corn, Sesbania, Bermuda for pasture.

July Planting List

FLOWER SEEDS: Cosmos, Celosia (Cockscomb), Cactus, Castor Bean, Gourds, Gaillardia, Lantana, Marigolds, Morning Glory, Nicotiana, Portulaca, Shasta Daisy, Sun Flower, Tithonia, Vinca, Vine Seeds, Zinnia.

FLOWER PLANTS: In season.

VEGETABLE SEEDS: Broccoli, Brussels Sprouts, Cabbage and Cauliflower Seeds in shaded beds, Casaba, Corn, Melons, Peanuts, Pumpkin, Squash, Tomato.

VEGETABLE PLANTS AND ROOTS: Egg Plant, Peppers, Tomato, Sweet Potato Plants.

LAWN SEED: Bermuda Grass Seed.

FIELD SEEDS: Bermuda Grass, Corn, Cowpeas, Millet, Milo Maize, Pink Beans, Sorghums, Sudan Grass, Sesbania.

August Planting List

FLOWER SEEDS: Alyssum, African Daisy, Cactus, Early Cosmos, Gaillardia, Dwarf Marigolds, Nasturtium, Phlox, Portulaca, Tithonia, Virginian Stocks, Zinnia.

FLOWER PLANTS: In season.

VEGETABLE SEEDS: Beans, Beets, Broccoli, Brussel Sprouts, Cabbage, Cauliflower, Carrot, Early Corn, Cucumber, Kale, Peas, Pumpkin, Early Squash, Swiss Chard, Turnip, Rutabaga, Radish.

VEGETABLE PLANTS: Cabbage, Cauliflower, Onion Sets, Garlic Sets.

LAWN SEED: Bermuda Grass Seed.

FIELD SEEDS: Bermuda Grass, Corn, Cowpeas, Millet, Pink Beans (to about Aug. 10), Sudan Grass, Field and Pasture Grasses.

September and October Planting List

FLOWER SEEDS: Alyssum, Ageratum, Arctotis, African Daisy, Anemone, Anagallis, Browallia, Bachelor Button, Calendula, Candytuft, Carnation, Calliopsis, Centaurea, Canterbury Bells, Clarkia, Columbine, Coreopsis, Delphinium, Daisies, Globe Amaranth, Gaillardia, Gypsophila, Godetia, Gerbera, Geum, Geranium, Hollyhock, Hunnemannia, Heliotrope, Larkspur, Linaria, Linum, Lupin, Lobelia, Mignonette, Moon Vine, Nemophila, Nicotiana, Nigella, Nasturtium in early September, Painted Daisy, Pansy, Petunia, Phlox, Pinks, Poppies, Pyrethrum, Queen Anne's Lace, Ranunculus, Salpiglossis, Salvia, Scabiosa, Snapdragon, Stocks, Schizanthus, Sweet Peas, Sweet William, Venidium, Wallflower, Wild Flowers, all Straw Flowers.

FLOWER PLANTS IN SEASON: We carry a complete stock of flower plants for early blooms.

BULBS: Amaryllis (October), Agapanthus (October), Anemone, Chinese Lily, Crocus, Calla, Lily, Daffodils, Freesias, Hyacinths, Iris, Jonquil, Muscari, Paper White Narcissus, Ranunculus, Soleil d'Or, Ornithogalum (Star of Bethlehem), Tulips, Hardy Lilies (October).

VEGETABLE SEEDS: Beets, Broccoli, Brussel Sprouts, Cabbage, Cauliflower, Carrot, Collards, Cress, Endive, Herbs, Kale, Kohlrabi, Leek, Lettuce, Mustard, Onion, Parsley, Parsnip, Peas, Radish, Rutabaga, Salsify, Spinach, Swiss Chard, Turnip.

VEGETABLE PLANTS AND ROOTS: Cabbage, Cauliflower, Onion Sets, Garlic Sets, Rhubarb Roots, Asparagus Roots, Strawberry Plants.

LAWN SEED: Bermuda Grass (September), Blue Grass, Winter Rye Grass, White Dutch Clover, Poa Trivialis, Bent Grass, Red Top.

FIELD SEEDS: Alfalfa, Barley, Oats, Winter Rye Grass, Wheat, Field and Pasture Grasses.

November, December and January Planting List

FLOWER SEEDS: Alyssum, African Daisy, Ageratum, Arctotis, Anemone, Anagallis, Bachelor Button, Browallia, Calendula, Canna, Candytuft, Carnation, Calliopsis, Clarkia, Columbine, Coreopsis, Delphinium, Daisies, Geum, Gerbera, Geranium, Gaillardia, Godetia, Globe Amaranth, Gypsophila, Hollyhock, Larkspur, Linaria, Linum, Lupin, Lobelia, Mignonette, Moon Vine, Nemophila, Nicotiana, Nigella, Painted Daisy, Pansy, Petunia, Phlox, Pinks, Pyrethrum, Poppies, Queen Anne's Lace, Ranunculus, Salpiglossis, Salvia, Schizanthus, Scabiosa, Snapdragon, Stocks, Sweet Peas, Sweet William, Verbena, Venidium, Virginian Stocks, Vinca, Wallflower, Wild Flowers, all Straw Flowers.

FLOWER PLANTS: Plant for early blooms.

BULBS: Amaryllis, Anemone, Agapanthus, Chinese Lilies, Crocus, Calla Lily, Daffodils, Freesia, Gladiolus, Hyacinths, Iris, Jonquils, all Hardy Lilies, Muscari, Paper White Narcissus, Ranunculus, Soleil d'Or, Ornithogalum, (Star of Bethlehem), Tulips.

VEGETABLE SEEDS: Beets, Broccoli, Brussel Sprouts, Carrot, Cabbage, Cauliflower, Collards, Chives, Cress, Endive, Kale, Kohlrabi, Lettuce, Leek, Mustard, Onion, Parsley, Parsnip, Peas, Radish, Rutabaga, Salsify, Spinach, Turnip.

PLANT UNDER COVER FOR EARLY CROP: In December and January, Egg Plant, Pepper and Tomato.

VEGETABLE PLANTS AND ROOTS: Cabbage, Cauliflower, Onion Sets, Garlic Sets, Rhubarb Roots, Asparagus Roots, Strawberry Plants.

LAWN SEEDS: Rye Grass Seed, Blue Grass, White Dutch Clover, Poa Trivialis, Bent Grass, Red Top.

FIELD SEEDS: Alfalfa, Barley, Oats, Winter Rye, Wheat, Field and Pasture Grasses.
